"	Robert Schouler, Expenses to Townsend, and Removing Mrs. Andrew Kenney,	10 00
"	J. Durgin, for Relief furnished Gilcrease Family,	3 93
	Amount carried forward,	$1723 15

Amount brought forward,	$1723 15	
Paid Charles Hill, for Services as Overseer,	25 00	
" R. Schouler, " " " "	20 00	
" James Durgin, " " " "	20 00	
" R. Schouler, " " " " 1860,	20 00	
		$1808 15

Bills Approved by the Selectmen.

Paid State Lunatic Hospital, at Worcester, for Support of Aaron Locke, Jerome Pierce, Alanson Blanchard, and Jas. E. Jenkins,	$606 43	
" W. J. Lane, for Insurance of Almshouse,	102 00	
" Walter Fletcher, for Rent of Spring,	10 00	
" Edward Storer, for Carpenter Work,	7 37	
" John Lawrence, for Painting, &c.,	12 39	
" Jesse Bacon, for Mason Work,	2 25	
		740 44
		$2548 59

The actual expense of the Almshouse and Poor, is shown, by deducting the following items from the above amount, viz:

Board of the men employed on the Highways,	$300 00
Support of Belmont's proportion of Paupers,	316 55
Wm. Carnes, Board paid by W. J. Lane,	156 00
Amount paid by Mrs. Isaiah Jenkins, for Support of James E. Jenkins, at Lunatic Hospital,	105 00
Amount paid by Town of Taunton, for Board of the Woodard Children,	18 00
Amount paid by the State, for Burial of Pauper,	5 00
	$900 55

Which will leave a balance of $1648.04, as the actual expense of the Almshouse and Poor for the year; about $200.00 of which was expended for relief out of the Almshouse. A great part of the Superintendent's time is occupied by his duties on the Highways, and a part of his Salary could properly be charged to Highway Expenses.

HIGHWAYS.

Bills Approved by the Selectmen, who are also the Surveyors of Highways.

Paid	John & Edward Lacy,	for	Labor,	$458 93

"	T. H. Russell, " "	3 93
		$2577 88

NOTE.....$238.91, of the foregoing expense, has been paid into the Treasury, as Sidewalk Tax. The board of the men employed on Highways. is chargeable under this head, but is included in the Almshouse Expenses, and is estimated at about $300.00. Also, a portion of the salary of the Superintendent of the Almshouse is chargeable under this head, as he is employed on the Highways a great part of his time.

County Tax,	2,326 98
Overlayings,	234 19
	$20,362 17

Live Stock stands—an Ox, 50 cents; a Cow, 25 cents. Horses at their value.

The within is a true and correct copy of a list of Town, State, and County Taxes, for the Town of West Cambridge, assessed upon the Polls and Estates of the inhabitants of said Town, and also the Non-Residents, according to a valuation as taken by the Subscribers, on the first of May, A. D. 1861, and committed to ABEL R. PROCTOR for collection, for the current year, with their Warrant, in due form of law.

WASHINGTON J. LANE,
STEPHEN SYMMES, JR.,
SAMUEL S. DAVIS,
} *Assessors of the Town of West Cambridge.*

West Cambridge, June 4, 1861.

REPORT.

To the Town of West Cambridge. —

The law of the Commonwealth requires, "that the School Committee shall, annually, make a detailed Report of the several public Schools, which Report shall contain such statements and suggestions, in relation to the Schools, as the Committee deem necessary or proper to promote the interests thereof."

In compliance therewith, the School Committee submit their Annual Report.

The statistics of the several Schools are given in a tabular form in an appendix to the Report. A brief comment upon the condition of each School, in other particulars, is herewith offered.

NORTH-WEST GRAMMAR SCHOOL.

Mr. Wilson Palmer, still continues as teacher of this School.

This School is in most harmonious relation with all whom it directly interests, teacher, pupils and parents. The field is open, therefore, for progress and improvement, and the result of much faithful work is clearly apparent. The teacher bestows his attention fairly and equally among his pupils. The proficiency of some of them evinces his ability as a teacher, but he deserves especial praise for his success in bringing his School to a general and nearly uniform level of merit.

At the commencement of the last School year, it became necessary, in order to relieve the crowded apartment in the lower story, to remove some twenty scholars from the Intermediate to the Grammar Room. It was not contemplated that these scholars should be placed under Mr. Palmer's immediate charge. Miss Annette C. Hill was appointed, as an assistant, to instruct them. She has been able, although they were selected for removal without reference to any standard of attainment, to incorporate them with the Grammar department, as its younger, but by no means its inconsistent or unsuitable branch.

NORTH-WEST INTERMEDIATE SCHOOL.

During the first term, this School was taught by Miss LIZZIE SCHOULER. She had been one of the most accomplished pupils of the Grammar School, but was not an applicant for the permanent teachership of this School. The former teacher, Miss M. C. HILL, who had retired, exhausted, and in ill health, although retaining great interest in the School, did not consider herself sufficiently restored, to comply with the wish of the Committee that she should resume her former station. Miss ELIZA A. SIMMONS was then appointed to the vacancy.

No School in the Town requires so much unwearying labor and vigilance as this one. The patience of the teacher is tried severely by slow advancement or by recoil from absolute immobility. The School room is inconvenient, and the circumstanees of the School, in many respects, unpropitious. It would not be a wise thing, to specify the inherent disadvantages under which the School labors. They will, in some measure, disappear or be modified, under the unflinching devotion of the teacher. Miss SIMMONS is evidently equal to the station she fills, and has already made decided progress.

NORTH-WEST PRIMARY SCHOOL.

This School has separated itself, naturally and necessarily, from the Intermediate School, and is now complete in itself. Its increase is rapid, and there is no prospect of a diminution of candidates. Miss FESSENDEN has manifested peculiar fitness for this School, and deserves great eredit for her faithful serviee.

It is with hesitancy, that the Committee, at this moment, when the burden of publie taxation is so oppressive, urge upon the attention of the Town any new subject of expense. It would be, nevertheless, a culpable neglect of duty, not to make known the cramped and insufficient accommodations which exist for these two younger Schools. The necessity of enlargement of the apartments is so great, even in the single consideration of room, not to mention the requirements of health and comfort, and other advantage, moral and mental, that concealment or silence would be almost criminal. The important question of cost, alone deters the Committee from recommending the most thorough provision for the wants of this District, in respect of School apartments.

RUSSELL GRAMMAR SCHOOL.

It is with a sense of relief that the Committee pass to the commodious apartments of the Russell Schools. Mr. ALANSON PALMER, and Miss

MORSE, as assistant, are the teachers of this School; which is, by far, the largest in the Town. The ability and time of these teachers are taxed to the utmost in the discharge of their difficult and laborious duty, and the result is highly satisfactory to the Committee. The School has exhibited, at its examinations, much evidence of thoroughness in the method and substance of instruction, and its condition, generally, is that of activity and improvement. The Classical and other higher branches are taught in this School, to a limited extent, and the interest of the scholars in these, so far as they are pursued, is an earnest of valuable attainment, when the Town shall be able to furnish to all who may be qualified, the opportunity of instruction in the highest order of studies.

RUSSELL INTERMEDIATE SCHOOL.

The Committee share in the common opinion in regard to the excellence of this School, and the quiet, faithful and genuine management, under which it steadily improves. Miss TURNER, by an experience of several years, and by conscientious devotion to her charge, has so given shape and direction to the School, that its success is unvarying, and its good condition always to be relied upon.

RUSSELL PRIMARY SCHOOL.

Miss Ellen CUTTER, has made this School, which has been under her charge from the beginning, an admirable adjunct to the Intermediate School. She manifests a fine aptitude as a teacher of the youngest School children, and her fidelity has been rewarded with marked success.

The experience of the last year has amply vindicated the wisdom of the Town, in erecting the spacious and well contrived School House, occupied by the Russell Schools. In no small degree are the improvement and happy condition of the Schools attributable to the comfort and fitness of the apartments which they occupy.

EAST DISTRICT SCHOOL.

This School, from various causes, is in the predicament of steady increase. Miss WORCESTER continued as its teacher until the first of March, of the present year, when the envious eye of a neighboring city fell upon her, and she was tempted to leave us. The Committee are free to express their gratitude for the valuable service rendered by her, and to recognize her merit in the order, discipline, and thorough training, for which her School was remarkable.

Miss Mary S. Cady was appointed to the School upon the resignation of Miss Worcester. During the year it became necessary to employ an assistant, and Miss Lydia Maria Crosby has occupied the post, to to the entire approval of the Committee.

The attendance of the Schools has decidedly improved during the past year. The absurd usage of "excuses," or written requests to the teacher to dismiss children in School hours, is on the decrease. The amount of tardiness is fearful, in the aggregate, and has been made the subject of remark at the recent examinations, in every School. This abridgment of School time, either at the beginning or end of the session, is to be condemned, and an appeal is made to parents, who alone have power to check the evil, to see that their children attend School in season, and to permit them to remain during the appointed hours.

The Committee, in alluding to the several Schools, have made use of terms of praise almost exclusively; and indeed, the Town has reason to congratulate itself upon the general excellence of its Schools. It is not pretended that greater discrimination might not have been made, and most certainly, that faults might not have been indicated. That defects exist, is admitted, and the Committee are by no means blind to them. But they are such as need not be made matter of public record, being local and temporary, and best understood and explained in the Schools where they exist, and by proper attention, can be remedied. The Committee have not overlooked any imperfection which has come to their knowledge, and they have endeavored, in every case, to remove it by timely action. They are happy in the belief that their suggestions have been kindly received, and faithfully followed.

In this connection, it may be stated, that the Committee have had scarcely any formal complaints to consider, and it is only in rare instances that individual members have been addressed in regard to the misconduct of pupils. The deportment of the children in and out of school has, in the main, given little cause for censure. School control, within its proper extent, has had its effectual exercise, and apparent failure has been found, on investigation, to be most frequently within the province of parental authority. Parents should bear in mind that the power of the teacher is limited by time and space, and that beyond School hours, and the School precincts, their own responsibility is to be resumed; and that if there be any debatable ground, between the two jurisdictions, it is for their advantage to occupy it.

The mode of criticising the faults, real or supposed, of a School, or the conduct of School children, deserves a word of comment. It should be

remembered that no aggregation of mortals, can be more sensitive to the breath of outside disapproval and adverse opinion, than a Public School. It feels the tarnish of every syllable of blame or distrust. The teacher is robbed of half his powers, who knows that his position is uncertain, and any mistake of his the sure prelude to a chorus of denunciation. The pupil who hears from his parent the expression of dissatisfaction with a teacher, takes his place, in School, unfitted for his own improvement, and in imperfect sympathy with his instructor. Let the common habit of a District be that of open and unfriendly remark, and the School, even in the ablest hands, can no more thrive and perform its office, than can the engine work with ungeared machinery, or the lamp burn clear in the choke-damp.

Now there is propriety of time and place, and especially of manner, for the discussion of the mishaps and mistakes of Schools. They certainly should not be the topic of conversation in the presence of School children, nor the food of store-gossip, nor the common and idle talk which is caught from mouth to mouth. The consequences are too serious and fatal, to admit of other treatment of School difficulties than that of consultation among the most prudent, and free communication with those in authority over the Schools. No occurrences are more likely to be misunderstood than those connected with School management, and there are none in which the careless or slanderous word works more irreparable mischief.

It has more than once been intimated to the Committee, that the higher branches taught in the Grammar Schools, especially the Languages, occupy the attention of the teacher to the exclusion of the regular Grammar studies. This subject has often received the consideration of the Committee. It is clear that no extraordinary, should be suffered to interfere with the legitimate, studies. If sacrifice is to be made, Virgil must yield to Greenleaf; Rhetoric to simple Grammar; Geometry to Geography; and plane Trigonometry to plain Reading. The Committee believe, however, that the classical and other higher studies are not prosecuted to an extent inimical to due attention to the common branches. The members of the Committee, oldest in service, when first elected, found the Languages and Mathematics in the Grammar Schools, and it is to be presumed they gained their lodgment fairly.

The fact that the higher studies have been so long in the Schools, is significant of the expediency, as well as of the prevalent judgment, that there should be a School in which these studies may find their proper abode and cultivation. The Report of the School Committee for the year 1858, suggested an arrangement of the Schools, which were then in two grades, into four grades, by dividing the Primary department into Intermediate and Primary Schools; and by forming a High School from the advanced classes

of the Grammar Schools. That Committee, which included some of the present members, by no means thought of substituting a new and arbitrary system of Schools for the arrangement then existing. They looked no further than the natural separation of the materials which they found at hand; and desired to make the best use of these by placing in distinct Schools the different grades which were grouped somewhat incompatibly and irregularly. Since that Report was made the Intermediate and Primary Schools have become distinct by natural and inevitable separation.

So, now, there is a class of pupils in the two Grammar Schools, who, in fact, are the elements of a High School, waiting to be brought together when their temple of learning shall have been made ready. The statement amounts, in the whole, to this, that the character of our Schools, pupils, modes and requirements of teaching, renders a fourfold division indispensable, if we would reap the full advantages of our plan of instruction.

But the Committee hasten to correct any impression which they may have given, that they recommend the present establishment of a High School. Even if the ill time, through which we are passing, did not forbid the expenditure, they should look upon that event as a blessing reserved for the future. They content themselves with declaring their belief; that, as a necessity, and as the result of public desire, sooner or later, our present Schools will culminate in a High School; and with placing their prediction on record, in the hope and expectation that returning peace and prosperity will bring with them its fulfilment.

In concluding their Report, the Committee would implore their fellow townsmen not to overlook the necessity of maintaining the public Schools, in their full efficiency. No other public interest of the Town can compare with them in importance. No interest would suffer so much, if crippled through insufficient appropriation. Every dollar spent for public education, is an investment for peace and protection in the future. On our children, perhaps, will devolve the duty of restoring, certainly of preserving, the institutions which now lie broken and bleeding on our hands. Let us, even at personal sacrifice, see that they are fitted, in mind and conscience, and in enlightened judgment, to be worthy citizens of a free, prosperous and peaceful republic.

"	J. B. Hartwell, Funeral Expenses of J. M. Kenny,	12 00
"	" " " " " " Mary Casey,	8 25
	Amount carried forward,	$1964 76

	Amount brought forward,	$1964 76
Paid	J. B. Hartwell, Funeral Expenses of G. W. Warren,	5 00
"	" " " " of Bridget Closey,	15 21
"	City of Boston, for Support of Jenkins and Grant,	13 00
"	Edward Russell, for Butchering,	1 50
"	S. F. Woodbridge, for Assistance rendered to Mrs. Moulton,	7 15
"	D. K. Wellington, for House Rent for Moulton,	9 00
"	State Lunatic Hospital, for Support of Aaron Locke, Jerome Pierce, James E. Jenkins, and Alanson Blanchard,	586 40
"	Edward Storer, for Carpenter Work,	10 88
"	" " " Funeral Expenses of Moulton child,	7 00
"	Richard Power, for Marble Shelf, &c.,	2 45
"	W. J. Lane, for Expense to Ashburnham, &c.,	6 98
"	James C. Jones, for Glazing,	1 00
		$2630 33

The actual expense of the Almshouse and Poor, is shown, by deducting the following items from the above amount, viz: —

Board of men employed on the Highways,		$300 00
Received from the Town of Belmont,		267 72
"	" W. J. Lane, for Wm. Carnes' Board,	156 00
"	" Mrs. Amos Hill,	19 00
"	" Thomas Cutter,	12 00
"	for Cow and Hog, sold,	48 08
		$802 80

Which will leave a balance of $1827.53, as the actual expense of the Almshouse and Poor for the year; about $426.71 was expended for relief out of the Almshouse. A great part of the Superintendent's time is occupied by his duties on the Highways, and a part of his Salary could properly be charged to Highway Expenses.

HIGHWAYS, TOWN WAYS, AND BRIDGES.

Paid Dennis Mahoney, for Labor,	$257	68
" James Mahoney, " "	213	11
" Thomas Cutter, " "	180	00
" Andrew King, " "	135	16
" John Lacy, " "	97	81
" John O'Brien, " "	86	50
" Daniel Hurley, " "	68	30
" Frank Mullett, " "	42	46
" Terence Owens, " "	25	62
" Timothy Leary, " "	18	00
" Timothy Murphy, " "	10	00
" Thomas Brady, " "	4	06
" Cornelius Leary, " "	4	06
" Michael Fermoyle, " "	4	00
" J. Winslow Pierce, for Grain, &c.,	13	49
" Fessenden & Davis, " "	344	16
" George Wright, for Hay,	117	00
" E. Davis, " "	80	63
" W. Kimball, " "	64	39
" Samuel Smith, " "	32	84
" Chs. G. Winn, " "	29	28
" B. Heald, " "	6	30
" Samuel Lewis, " Gravel,	40	62
" Stephen Swan, " "	6	75
" City of Cambridge, for Stone for Culverts,	42	50
" William L. Clark, for Harness Work,	18	64
" Nath. C. Huntress, " " "	16	18
" Sam'l C. Bucknam, for Wheelwright Work,	26	75
" Albert Deblois, " " "	10	12
" William H. Richardson, for Blacksmith "	56	97
" William T. Wood, " " "	7	74
" Joshua Caldwell, " " "	88	43
" F. E. Foster & Co., for Lumber for Bridge,	91	90
" C. S. Jacobs, for Labor on Bridge,	26	62
Amount carried forward,	$2268	07

	Amount brought forward,	$2268 07
Paid Hollis Gerry, for damages by obstruction in Highway,		10 00
" Alfred Brooks, for Stone Posts,		4 96
" W. Saunders, for Veterinary Attendance,		5 00
" E. P. Pierce, for removing Snow,		4 00
" R. W. Shattuck, for Shovels,		2 67
" John Ford, for Work on Culverts,		2 00
		$2296 70

NOTE.....$56.26, of the foregoing expense, has been paid into the Treasury, as Sidewalk Tax. The board of the men employed on Highways, is chargeable under this head, but is included in the Almshouse Expenses, and is estimated at about $300.00. Also, a portion of the salary of the Superintendent of the Almshouse is chargeable under this head, as he is employed on the Highways a great part of the time.

TOWN HOUSE.

Paid John Lawrence, for Painting, &c.,	$3 75
" T. K. Hutchinson, for Cleaning Vault,	5 00
" R. W. Shattuck, for Repairing Furnace, &c.,	5 88
" J. Winslow Pierce, for Fuel,	12 38
" John B. Hartwell, Care of Hall, &c.,	30 08
" West Cambridge Gas Light Company, for Gas,	82 22
" Edward Storer, for Repairing Roof, &c.,	53 26
" " " " Care of Town Hall,	87 50
" W. J. Lane, for Insurance,	212 50
	$492 57

FIRE DEPARTMENT.

Paid	Engineers, for Services in 1861—2,	$45 00
"	35 members of Eureka Engine, for Services to May 1, 1862,	175 00
"	Refunded Poll Tax to Engine members, 1861–2,	46 50
"	Edw. Lacy, for Care of Engine, to May 1, 1862,	13 80
"	James Boyd, for Repairing Hose,	2 50
"	Abijah Frost, for Care of Engine one year, &c.,	52 00
"	J. C. Hobbs & Son, for Repairs of Engine,	6 65
"	Harvey Bacon, for Services at Fires,	16 00
"	Solon Hardy, for Refreshments at Fires, and Wood, Oil, &c.,	22 51
"	J. Winslow Pierce, for Coal,	2 50
"	Edward Storer, for Work on Engine House,	2 75
"	T. A. Thornton, for Leather for Engine,	1 75
"	T. H. Russell, Refreshments for Howard Engine Company,	4 05
		$391 01

JUVENILE LIBRARY.

Paid	Annual Appropriation,	$100 00
"	S. E. Stanwood, for Services as Librarian,	50 00
"	R. Hollings, for Gas Pipe,	1 85
"	W. & E. Howe, for Printing,	7 00
		$158 85

LIQUOR AGENCY.

Paid	Edward F. Porter, State Liquor Agent, for Wines and Liquors,	$386 99
"	United States License,	20 00
		$406 99

STREET LAMPS.

Paid	West Cambridge Gas Light Company, for Gas, to March 31, 1862,	111 00
"	West Cambridge Gas Light Company, for Gas, to March 31, 1863,	90 27
"	Thomas Butler, for Care of Lamps,	50 40

		$21,699 28

The record of this book is a true and correct copy of a list of Town, State, and County Taxes, for the Town of West Cambridge, assessed upon the Polls and Estates of the inhabitants of said Town, and also the Non-Residents, according to a valuation as taken by the Subsbribers, on the first of May, A. D. 1862, and committed to ABEL R. PROCTOR for collection, for the current year, with their Warrant, in due form of law.

WASHINGTON J. LANE,
STEPHEN SYMMES, JR.,
SAMUEL S. DAVIS,
Assessors of the Town of West Cambridge.

West Cambridge, June 1, 1862.

SCHOOL REPORT.

To the Town of West Cambridge: —

The School Committee submit their Annual Report.

NORTH-WEST GRAMMAR SCHOOL.

Wilson Palmer, Teacher.
A. Frances Russell, Assistant.

Mr. Palmer has finished another year of service, and with it his connection with the School. He resigns with the intention of changing his profession. The praise we may bestow will not avail him, therefore, as a teacher, and must serve only as an expression of gratitude, for work conscientiously performed, and rich with good result. He has labored diligently, persistently, and discreetly, to the last moment. He returns his School to the Committee, improved, especially in regard to its general and uniform activity and progress.

The School has lost its oldest class of pupils, which was one of its chief ornaments. The Committee observed that in this, and in the other Grammar School, the number of pupils above fifteen years was small. Some of these had left, as a matter of necessity, to engage in outside employment; but there are other causes for withdrawal, which will be alluded to in another part of this Report. The annual examination, therefore, was limited to the Grammar branches, and in these the School maintained its well established proficiency.

Miss Hill, the former assistant, resigned at the close of the Winter Term. She was succeeded by Miss A. Frances Russell, who had been a very meritorious pupil in the Russell School. The classes of the new assistant appeared well, and experience will develop in her good qualities as a teacher.

NORTH-WEST INTERMEDIATE SCHOOL.

ELIZA A. SIMMONS, Teacher.

Miss SIMMONS has given constant attention to her severe task in this School, and the effect of her exertion is apparent. At the examination, the reading was excellent, the spelling good, and the recitations in Arithmetic prompt and accurate. The School exhibits marked improvement in deportment, and in methodical instruction, and in all respects the foundation is well laid for rapid advancement.

NORTH-WEST PRIMARY SCHOOL.

FRANCENA R. FESSENDEN, Teacher.

This School has passed another year in its narrow and crowded enclosure, for school-room it should not be called. It is surprising that Miss Fessenden should be able to teach at all in the apartment in which she and her School are confined, and a marvel indeed, that she should teach so well. The Committee can no longer be accessory to this "murder of the innocents," and therefore call upon the Town for largely increased accommodations for this School, and the other Schools kept under the same roof.

It is useless to particularize faults in the present building. It must be transformed into a commodious edifice by the most thorough re-modelling, or its place must be supplied with something much better. The alterations made a few years since, were insufficient, and their cost was money thown away. The Town should be wisely economical in the change asked for, and make its appropriation large enough to provide for the wants of the District in respect of School accommodations for many years to come.

RUSSELL GRAMMAR SCHOOL.

ALANSON PALMER, Teacher.
LIZZIE S. MORSE, Assistant.

The Committee gave an entire day to the examination of this School. The faithfulness of the teachers is undoubted. In a School of the ordinary number of pupils, the success would have been complete. In one so numerous, and various in age and studies as is this, impossible results must not be looked for, and merit of the teachers must be measured by relative improvement. No sign is wanting of diligence or ability on their part, but when both these qualities are exhausted, there is failure of entire fulfilment of the purpose of the School. Relief must come to the School by separation, not laterally but upward; not by creating two similar Schools, but by removing the older pupils into a School by themselves.

RUSSELL INTERMEDIATE SCHOOL.

CAROLINE C. TURNER, Teacher.

This, and the attendant Primary School, have been regularly graded, and there is no halting in their improvement. The arrangement of this School, combined with Miss TURNER'S approved experience and excellence, as an instructor, has had the happiest effect upon its comfort, harmony and progress.

RUSSELL PRIMARY SCHOOL.

ELLEN CUTTER, Teacher.

The Committee cannot too highly praise Miss Cutter's earnestness, patience, and well-applied skill in training her young charge in their first steps in education. The grading of this School has been to its marked benefit.

EAST SCHOOL.

MARY S. CADY, Teacher.
LYDIA MARIA CROSBY, Assistant.

The division of this School into Intermediate and Primary Departments, should have taken place a year ago. Nothing but the lack of School accommodations prevented. These should be at once supplied, so that no time be lost in changing the organization of the Schools. So far as the convenience of the rooms would permit, classes of pupils have been assigned to the separate control of the teachers, but the division is, of course, incomplete. The Schools require distinct rooms. With due allowance for serious disadvantages, the School is in a highly satisfactory condition, and its teachers are fully qualified for their position.

The Committee in thus presenting a cursory Report of the Schools, adhere to their usage, of avoiding all unfavorable personal criticism; and in naming defects, of limiting themselves to those which can be removed by public action only. The passing trouble is otherwise met. A teacher who should be inefficient, would be quietly dismissed. If short-comings in study or deportment, among pupils are observed, they are made the subject of free comment and advice within the School-room. The Committee have seen, with peculiar pleasure, the emulation among the Schools, to redress the faults which from time to time have been indicated to them. The extent of tardiness noticed last year, as reprehensible, has been diminished by two-thirds. If reformation can privately be effected, what need is there of parading the delinquent School in the printed Report.

Beyond these considerations, it would be unfair to hold the Schools to strictest account, while the principle on which they are established is as yet imperfectly carried out. The superiority of the system is unquestionable; its partial development only, makes its success partial. The system embraces in its scheme, a complete series of graded Schools, commencing with the Primary Schools, and culminating in a High School. With every year there has been a gradual approach to completeness. The end of the School year now beginning, will find a perfect sub-division of the younger Schools, with graded Intermediate and Primary departments. But one step more will remain to be taken; that is, to relieve the Grammar Schools, by crowning the series with a High School. The Committee have more than once endeavored to impress upon the Town, that its plan of Schools was of its own adoption, if indeed it were not evolved from local peculiarities and wants, and had taken shape as time and circumstance compelled. That it is not the invention, whim, nor experiment of those who lately have had charge of the Schools, is surely the case, for it is found by reference to the Reports of former Committees, that the plan is in no way a novelty. The Report of the School Committee, made in the year 1840, contains the following:

"The solicitude which has manifested itself among the inhabitants of the Town, during the last few years, to elevate the standard of education has effected a change which must be apparent to all who visit the Schools." ****

"The new arrangement of *separating the large scholars from the small, in different apartments, and under teachers with different literary acquirements*, has, in the opinion of the Committee, tended to elevate the standard of education."

"With the advantages at present enjoyed by the youth of the Town, much may reasonably be expected, and we have strong assurances that these advantages have not been, and will not be lost on them."

The School Committee were, James Russell, Abner Pierce, John Fowle, Timothy C. Tingley.

The above extracts, to be found in the Report of the Secretary of the Board of Education, for 1839—40, show conclusively that nearly a quarter of a century ago, the plan of Schools had made its inception, and that the sagacions Committee of that day appreciated its benefits and prospects.

The simple arrangement described in this old Report, by which the older are separated from the younger pupils, and each School placed under its fit teacher, is the key to our system of Schools. It includes the whole theory of graded Schools. The educational experience of many years in this Commonwealth, has demonstrated the system of gradation to be the

best, and the able Report of the Secretary of the Board of Education for the present year, discusses it as a leading topic, and commends it for universal adoption.

The purpose of the system is to include in one School only that class of children, to whom, from their years and condition of mental advancement, a uniform mode of government and instruction will apply. If the range of age be too great, the teacher is embarrassed by the variety of discipline required, and if the studies be too numerous, his faculties are overtasked and diffused. His best success is secured by concentrating his attention upon pupils and branches that do not distract by conflict or incongruity.

But if the Schools in this Town are partially within this system, they nevertheless suffer wherever the grading is not introduced. This may be seen in the Grammar Schools. In these, there has been a long struggle for a monopoly of the teachers' attention, which has ended where it ought to end, in favor of those who are properly Grammar pupils. The consequence has been, that the older children have found their claims unanswered, their position incompatible, and of course their interest in study declining. Some of them have resorted to private Schools; others, and by far the majority, have quitted School altogether. The number of pupils in the Schools, over fifteen years of age, is very small, and the Committee cannot say that the older class of Grammar pupils has been distinguished by any superiority of deportment or application to study.

These important facts being known to the Committee, it is their clear duty to present them, and to suggest the best possible remedy. This is easily done. The Town must complete its series of Schools. It must establish a High School, in which, in the language of the Report already quoted, there shall be separation of "the large scholars from the small, in different apartments, and under teachers with different literary acquirements." The Committee have no hesitancy in pressing this necessity upon the Town, and make no apology for over urgency. In former Reports, they have shown to what results the requirements of our School system must logically lead. It is time that the question was disposed of by direct discussion and action. If the Town be in earnest in the fulfilment of its duties towards the rising generation, then what is now to be said will have its proper weight.

The laws of the Commonwealth require that every Town containing five hundred families or householders, shall maintain a High School of a designated grade. Any smaller Town *may* maintain such a school. One hundred and one Towns in the State have complied with this law. Twenty-

two Towns, estimated from the number of inhabitants, to be within the requirements of the law, have not complied. In Middlesex County, every Town liable, has its High School. Of twenty-five Towns in this County, having High Schools, five have voluntarily established them, not being liable under the law. West Cambridge stands the twelfth among the Cities and Towns of this County, in the valuation of estates. It is the fifty-first Town in the County in the proportion of its School appropriation to its valuation. There is but one other Town in the State with a valuation equal to that of West Cambridge, that has not a High School.

Now it is the long settled policy of the State, to compel each Town to maintain the best School, that its means can provide; and general laws have been enacted, by which the number of families is made the measure of ability. This Town, and one or two others are anomalous in their position. They have the wealth of large and the population of small Towns. They are not within the letter, but certainly are within the intent of the law. If this Town choose for the present to avoid its duty, it may do so, without the fear of the law before its eyes.

This being the condition of things, what shall be the action of the Town. If it do not wish to complete its series, it can have its fair, mediocre, respectable Schools, with the disadvantages of an imperfect system; or, at a cost not considerable in proportion to its means, it can by establishing a High School, put life, harmony, and improvement into the entire chain. As the Town now is, this can be done, not through compulsion, but by generous, intelligent choice.

The one great objection will be urged against the introduction of a High School, — the argument to the purse. The Committee do not, by the remotest implication, hint the charge of parsimony upon the Town. It is not the lack of liberality, but the inappreciation of an important interest and duty, that the Committee hold most in fear. The Town will be compelled, this year, to expend large sums on School-houses. But this expense is temporary, and being met, is disposed of for years. Then, again, all public burdens are increasing, and their weight will press heavier and heavier. But the education of our children is a primary duty, and its cost must be provided for, whatever other charge may come with it. Besides, no small portion of these extraordinary burdens have been distributed along the years to come, to be upheld and discharged by those who are to succeed us on the stage of active life. Is it right to impose the load, and by deficient education diminish the power of bearing it. But the Town would not be assuming an unusual liability in providing for

a High School; the increased appropriation would not even then carry it into the first half of Middlesex Towns in the table of proportionate expenditure. Indeed, in 1840, the Town appropriated double the proportion it now expends,—and it is to be feared that the Schools have not kept pace with the increase of property.

After all, it is property that must support public education; and most properly so, for it thus provides for its own preservation. Measurably, the poor of this generation will be the rich of the next, and so with the converse. Property must educate those who are to have it in charge, to protect or to administer it. Public education has, therefore, for its maintenance, in some manner, a right of eminent domain over property, and the cost which the latter pays, is the lightest police or war tax, for it goes farthest in securing peace and public and private rights. It is no boon, this support of public education; it is the discharge of a duty which, neglected, would involve the community in a myriad of woes. If flagrant war consumes our substance, yet war is not perpetual, and the generation we are now educating, are to set up the prostrate columns of good government, and to secure to our land as it issues from its trial of conflict and disorder, the blessings of lasting peace. Not the least place, then, in a wise economy, in meeting the claims of present duty, should be filled by a generous provision for the thorough education of those with whom, by and by, the sacred and permanent interests of society will rest.

Amount carried forward,	$1930	79

Amount brought forward,		$1930 79

POOR OUT OF THE ALMSHOUSE.

Paid State Lunatic Hospital, at Worcester, for Support of Aaron Locke, Jerome Pierce, Alanson Blanchard, and James E. Jenkins,	$588 24	
" R. Schouler, House Rent for A. Kenny,	38 23	
" James Gibson, " " " " "	25 57	
" D. Dodge, for Medicine " " "	3 55	
" Solon Hardy, for Groceries and Provisions for A. Kenny,	148 78	
" Solon Hardy, for Groceries and Provisions for A. M. Thorpe,	18 13	
" W. J. Lane, for Clothing, &c , for A. M. Thorpe,	15 00	
" Henry Swan, for Clothing, &c., for A. M. Thorpe,	8 00	
" J. W. Pierce, for Coal for Mrs. Hagan,	4 25	
" " " " " " " Moulton,	25 25	
" S. Hardy, for Groceries " " "	7 00	
		882 00
		$2812 79

The actual expense of the Almshouse and Poor, is shown, by deducting the following items from the above amount, viz: —

Board of Men employed on the Highways,	$350 00	
Received from Town of Belmont,	258 84	
" " Estate of Amos Hill,	27 00	
" " Hogs sold,	63 48	
" " Mrs. Isaiah Jenkins, for support of J. E. Jenkins at State Lunatic Hospital,	100 00	
" W. J. Lane, W. Carnes' Board,	156 00	
		$955 32

Which will leave a balance of $1857.47, as the actual expense of the Almshouse and Poor, for the year. A great part of the Superintendent's time is devoted to the Highways, and a part of his Salary could properly be charged to Highway Expenses.

HIGHWAYS, TOWNWAYS, AND BRIDGES.

Paid J. P. Converse, for Services on Mill Street,	$2 00
" W. Saunders, for Veterinary Attendance,	4 00
" Wm. T. Wood, for Repairing Tools,	2 55
" Thomas Thorpe, for " Hay Cutter, &c.,	4 50
" Francis Gould, for Plan of Mill Street,	5 00
" R. W. Shattuck & Co., for Tools,	2 96
" A. Howe, for Tools, &c.,	4 75
" A. Deblois, for Wheelwright Work,	10 50
" S. C. Bucknam, " "	13 75
" G. N. Lawrence, for Hay,	14 90
" P. Hutchinson, " "	20 55
" Mr. Lombard, " "	30 92
" William Kimball " "	48 32
" George Wright, " "	66 26
" W. J. Lane, " " at Auction,	75 29
" Edward Storer, for Lumber, &c.,	81 59
" Cyrus Cutter, for Gravel,	33 70
" Richard Richardson, for Gravel,	35 00
" Wm. L. Clark & Co., for Harness Work,	43 92
" J. Caldwell & Co., for Blacksmith "	64 89
" W. H. Richardson, " " "	50 60
" Fessenden, Davis & Fowle, for Grain,	177 80
" J. Winslow Pierce, " "	246 31
" M. McWilliams, for Labor,	12 50
" B. Mahony, " "	3 00
" Timothy Leary, " "	15 79
" John Lacy, " "	165 00
" Thomas Cutter, " "	187 00
" Phineas Whiting, " "	230 00
" James Mahony, " "	322 38
" Dennis Mahony, " "	334 38
	$2310 11

NOTE....The actual expense of the Highways is shown by deducting from the above amount $16.00, received for Teaming Wood, $196.67 Side-walk Tax, and $450.00 for Digging Cellar and Grading the New North-west School-House Lot, and adding the Board of the men employed on the Highways at Almshouse, estimated at $350.00. A large proportion of the Salary of the Superintendent of the Almshouse is chargeable to the Highways, as most of his time is employed on them.

NEW SCHOOL-HOUSE IN NORTH-WEST DISTRICT.

Paid E. Blake, for Copying Specifications,	$1 00
" Jacob Schwamb, Damage to Crop,	3 00
" William T. Wood, for Repairing Tools, &c.,	3 24
" E. P. Dutton & Co., for Erasers, &c.,	5 00
" T. H. Russell, for Powder,	4 41
" A. Deblois, for Work on Derricks,	6 00
" Dennis Higgins, for Stone Work,	10 00
" William Morrow, " " "	9 00
" John Winn, for Carting Furniture,	16 00
" William E. Parmenter, Esq., for Writing Contract, &c.,	18 00
" Solon Hardy, for Powder, &c.,	21 81
" Stephen Smith & Co., for Chairs,	28 50
" William H. Maine, for Soapstone Work,	25 70
" W. J. Lane, for Insurance,	47 00
" J. Winslow Pierce, for Coal,	56 88
" Alfred Brooks, for Stone Work,	50 56
" James M. Chase, for Plans,	40 03
" James C. Bertwell, for Stone Work, &c.,	344 75
" Jesse Bacon, for Mason Work,	348 58
" R. W. Shattuck & Co., for Furnace, &c.,	376 47
" Nathan Robbins, for Land,	800 00
" J. L. Ross, for Furniture,	815 17
" Edward Storer, for Contract, extra Work, and Building Privies, &c.,	6282 88
	$9311 98

In addition, the men and teams, employed on the Highways, dug the Cellar and Graded the Lot, the value of which, is estimated at $450.00, which amount should be added to the above, in estimating the total cost.

FINISHING UPPER STORY OF EAST SCHOOL-HOUSE.

Paid John Winn, for Teaming, &c.,	$5	50
" D. Pratt & Sons, for Clock,	7	00
" W. H. Maine, for Soapstone Work,	11	00
" W. G. Shattuck, for Furniture,	150	40
" R. W. Shattuck & Co., for Furnace, &c.,	148	48
" Edward Storer, Contract, and Extra Work, and Building Fence,	767	84
	$1090	22

TOWN HOUSE.

Paid Timothy Donahue, for Work in Cellar,	$0	75
" Jesse Bacon & Co., for Repairs,	1	00
" John Lawrence, for Setting Glass, &c.,	4	00
" Jonas Woodard, for Charcoal,	7	50
" R. W. Shattuck & Co., Repairing Furnace, &c.,	9	85
" West Cambridge Gas Light Co., for Gas,	52	40
" J. Winslow Pierce, for Fuel,	55	88
" E. Storer, for Care of Town Hall, and Repairs,	137	55
	$268	93

STREET LAMPS.

Paid West Cambridge Gas Light Company,	$106	10
" Thomas Butler, for Care of Lamps,	50	00
" John Lawrence, for Repairing Lanterns,	1	50
	$157	60

JUVENILE LIBRARY.

Paid Town Grant,	$100 00
" Miss S. E. Stanwood, Librarian,	50 00
	$150 00

LIQUOR AGENCY.

Paid Edward F. Porter, State Liquor Agent, for Liquors and Wines,	$529 83
" Ralph Smith & Co., for Brandy,	9 35
" United States License,	13 33
	$552 51

FIRE DEPARTMENT.

Paid Charles Dudley, for Broom,	$0 38
" Joel Gay, for Repairing Engine,	4 50
" Solon Hardy, for Oil, &c.,	4 18
" M. Rowe, for Refreshments furnished at Fire of Mrs. Jonas Pierce's House,	7 00
" J. Boyd & Sons, for Blunderbuss,	15 00
" Belmont Engine Company, for Refreshments,	1 00
" J. Winslow Pierce, for Drawing Engine to Fires,	15 00
" Abijah Frost, for Care of Engine and Repairs,	56 50
	$103 56

From the above should be deducted $19.15 received for old Hose, sold to J. Boyd & Sons.

AMOUNT OF TOWN VALUATION

FOR THE YEAR 1863.

Real Estate,		$1,721,536 00
Personal Estate,		973,250 00
		$2,694,786 00
Rate of Taxation, $12.50 on the thousand dollars, gives		$33,684 82
665 Polls, at $2.00 each,		1,330 00
		$35,014 82
Town Grant,	$25,000 00	
State Tax,	6,408 00	
County Tax,	1,974 83	
Overlayings,	1,631 99	
		$35,014 82

This is a true and correct copy of a list of Town, State, and County Taxes, for the Town of West Cambridge, assessed upon the Polls and Estates of the inhabitants of said Town, and also the Non-Residents, according to a valuation taken by the subscribers, on the first day of May, A. D. 1863, and committed to ABEL R. PROCTOR, for collection, for the current year, with our Warrant, in due form of law.

WASHINGTON J. LANE,
STEPHEN SYMMES, JR.
SAMUEL S. DAVIS,
} *Assessors of the Town of West Cambridge.*

West Cambridge, June 1, 1863.

SCHOOL REPORT.

To the Town of West Cambridge —

The School Committee submit their Annual Report.

The Committee omit the usual detailed statement of the condition of the several Schools, except in the mention of such changes of Teachers as have taken place since last year.

In the North-east Grammar School, Mr. Bradford L. Fullerton taught for the first Term, and at its close, resigned. Mr. J. D. Marston was then appointed, and the School is in able hands.

Miss Fessenden, teacher in the North-west Primary School, resigned last Autumn, after several years of faithful service, and was succeeded by Miss Lizzie D. Schouler.

Miss L. M. Crosby, Assistant in the East School, on the division of the School, was appointed teacher of the Primary department.

The Committee do not offer extended comment on the Schools. The Town has so generously complied with the suggestions of the Committee, that most of the disadvantages indicated in former Reports, have been remedied, and under a better arrangement, the Schools are, in the main, in successful operation. The Committee prefer, at this time, to submit in a brief Report, the results of the improvements of the last few years, and thus exhibit to the Town its present means for the education of the young.

SCHOOL HOUSES.

As will appear by the Report of the Building Committee, the School House ordered at the last annual Town Meeting to be built in the North-west District, has been completed. A convenient site was purchased, and the School-House placed eligibly and conspicuously, so as to fulfil every purpose of use, convenience or ornament. The School-House is nearly a

duplicate of the Russell School-House, differing in a few particulars of internal arrangement, where experience had suggested improvement. The principal alteration is in the second story, or Grammar room, which is equally divided by a partial partition with sliding doors; by opening these, the entire story becomes a single, spacious hall. The house is faithfully and substantially built, and will be ready for occupancy at the beginning of the next term.

The Joint Building Committee have advised that the new edifice shall bear the name of the CUTTER SCHOOL-HOUSE. They have followed the example set in designating the Russell School-House, that of selecting a family name, localized in the TOWN, identified with its history, progress, and interests, and made worthy of respect by those who have borne it. Although it is the collective, and not the individual name, that is applied, we may yet well be mindful, that in our Town, it has long been associated with noble bequests for education and charity, which render this use of it a fitting and grateful tribute.

The Russell and Cutter School-Houses, as the Town is aware, are each arranged for three Schools. In the lower stories are the Intermediate and Primary Schools in separate rooms. In the second stories are the Grammar Schools, with rooms for the younger or Sub-Grammar portion of the pupils. Each house has a large basement, well cemented, affording a shelter to children at recess-time, in inclement weather.

The East School-House has now two excellent rooms, the Primary School occupying the lower, and the Intermediate the upper room.

All the School-Houses are in admirable condition, provided with out-of-door conveniences, furnished with seats and desks of modern and approved style, and are altogether well suited to the ends for which they were built. They are a speaking proof of the liberality and intelligence of the Town.

GRADING OF THE SCHOOLS.

In the Report of the School Committee, in 1858, may be found a plan of organizing our Schools, which has been closely followed in all recent changes, whether in the division of Schools or the construction of School-Houses. The Schools at that time were of two grades only, and were entitled, without any special propriety, Grammar and Primary Schools. These Schools were large in the number of pupils, comprehensive in the variety of studies, and conflicting in the demands upon the labor and attention of the teachers. To any one acquainted with the machinery of Schools, it was obvious that in every group of Grammar and Primary

Schools, instead of two, there were four, and perhaps five Schools, struggling to be set free, and to be placed in their natural and proper arrangement. The size and character of the School-Houses rendered a sub-division impossible. The first attempt to separate Schools was made in the Primary School in the North-west District, the younger scholars being placed in a room by themselves, and the assistant set over them as their teacher. The accommodations were too limited for a complete experiment, but the success was sufficiently marked to satisfy the Committee of the correctness of the system. Consequently, in the plan of the Russell School-House, the sub-division and grading of Schools were prominently borne in mind, and upon occupying the building, the Schools were separated into their proper departments. The experience of more than three years in the Russell School, has confirmed the excellence of their classification; and the three School buildings are now arranged to conform to a uniform system of gradation. This is still new, for it has only been completed the present year — and there are many details to be methodized before there can be entire harmony of action. Substantially the system is this. The child at five years of age enters the Primary School. This comprises three classes. It is the first School, and in it are taught the simplest rudiments, and in proper freedom, the first lessons of restraint and government. He remains in this School three years, and then passes into the Intermediate School. This also comprises three classes, and here the child continues for three years. He then goes into the under department of the Grammar School, in charge of a female assistant, and passes from class to class until he is placed under the instruction of the male teacher, and thus completes his school life. As the Committee have said, the system is not yet reduced to its thorough working. Much remains to be done in the classification of pupils, and of studies. But with the means at hand, the residue of the work is of easy accomplishment, and the coming year may suffice to bring the system into perfect action. The Town has now two Grammar, three Intermediate, and three Primary Schools.

HIGH SCHOOL.

The Grammar Schools, still, however, contain pupils who require advanced studies, not ordinarily, nor properly pursued in Schools of that grade. The pupils of this class have, from year to year, become fewer in number from the fact, that being out of place both as it regards themselves and their studies, they have either resorted to private instruction, or abandoned school altogether. Old pupils do not mate well with young ones, and the

higher studies in a numerous School must overshadow the common ones, or else be superseded by them, if all come within the province of a single teacher. There is but one remedy, and that is the separation of the older pupils into a High School. This would complete our system of Schools.

The Committee have, from year to year, presented the importance of this matter to the Town. In this respect they have exhausted their duty. The subject is well understood, and is now being considered by the Town. The Committee are clear, in their opinion, upon the value and necessity of a High School; the question of the time and expediency of its establishment, they leave to their fellow-citizens.

"	" " " " " T. Edges,	5 00	
"	City of Boston, for Relief to L. Stevens,	10 00	
"	J. Winslow Peirce, for Coal for Mrs. Hagan and Fitzpatrick,	18 51	
"	J. B. Hartwell, for Funeral Expenses of Mary A. Stingel,	11 00	
			1,085 36
			$3,593 43

The actual expense of the Almshouse and Poor, is shown by deducting the following items from the foregoing account, viz:

Board of the Men on the Highways,	$400 00
Received of the Town of Belmont,	241 88
Amount carried forward,	$641 88

Amount brought forward,	$641 88
Received for Wm. Carnes' Board,	156 00
" " Cow sold,	85 00
	$882 88

Which leaves a balance of $2,710.55, as the actual expense of the Almshouse and Poor, for the year. A great part of the Superintendent's time is devoted to the Highways, and a large part of his Salary should be considered as Highway Expenses.

HIGHWAYS, TOWNWAYS AND BRIDGES.

Paid Patrick Bannon, for Labor,	$3 00
" Richard Barry, " "	2 00
" John Sullivan, " "	10 50

AMOUNT OF TOWN VALUATION

FOR THE YEAR 1864.

Real Estate,		$1,753,002 00
Personal Estate,		929,850 00
Total amount,		$2,682,852 00
Rate of Taxation, $13.00 on the thousand dollars, gives		$34,877 07
Number of Polls, 714, at $2.00 each,		1,428 00
		$36,305 07

Town Grant,	$27,750 00	
State Tax,	6,408 00	
County Tax,	1,972 13	
Overlayings,	174 94	
		36,305 07

The foregoing is a true and correct copy of the List of the Town, State, and County Taxes for the Town of West Cambridge, assessed upon the Polls and Estates of the Inhabitants of said Town, and also the Non-Residents, according to a valuation taken by the subscribers, on the first day of May, A. D. 1864, and committed to ABEL R. PROCTOR, for collection, for the current year, with our Warrant, in due form of law.

STEPHEN SYMMES, JR.,
GEORGE C. RUSSELL,
DAVID CROSBY,
} *Assessors of the Town of West Cambridge.*

West Cambridge, June 1, 1864.

SCHOOL REPORT.

In accordance with the law of the Commonwealth, the School Committee beg leave to present the following Report: —

It affords the School Committee great pleasure to be able to report that the Schools of the Town are in a very excellent condition. The generosity of the Town in furnishing such commodious and pleasant School Buildings, is meeting its fit reward. And the wisdom of the Town in the establishment and support of a High School, is already being shown in the increased interest and energy with which both teachers and scholars have taken hold of their allotted work.

The watchword in all the Schools, more especially for the latter part of the school year, has been "Excelsior," and the Committee can but feel gratified at the progress made in each and every department of School labor. And the Town, through the energy and interest thus happily developed, is already receiving good return for its investments in behalf of the educational interests of the young. Nothing is more apparent than that the children are beginning to appreciate the liberality and wisdom of the Town, and future generations will reap ample reward from the good seed thus being sown in the minds and hearts of the children of to-day. This surety of good, if nothing else, should prompt us to a cheerful continuance of that generous support, with which, for so many years, the measures of the School Committee have been favored. But to proceed in detail.

HIGH SCHOOL.

This School, which opened last December, with an unexpected number of pupils, has been under the charge of Mr. C. O. Thompson, assisted, during part of the Term, by Mrs. Carleton. It gives us great pleasure to bear witness to the entire success which this new and much needed School has achieved. In one Term, and that a Term broken by reason of the ill health of Mr. Thompson, the School has made a long step for-

ward. The quiet, judicious, and efficient method of teaching and government, adopted by the Principal, and the steady, persistent efforts of the pupils, render apparent the use and value of this School. Studies which could not be pursued to advantage elsewhere, have been very successfully prosecuted here, and already has a good foundation for future usefulness been laid, through the readiness of the pupils to receive and make use of the discipline and information which are here offered them. And when sufficient time shall have passed, to put into operation the whole course of study which has been marked out for this School, we think there will be manifest such a decided improvement in scholarship, and such added means of usefulness and honor, as will suffice to convince all thoughtful persons, of the great value, and necessity to the Town, of this School, which stands as the cap-sheaf of our system of Town Schools.

GRAMMAR SCHOOLS.

The Russell Grammar School continues under the charge of Mr. ALANSON PALMER, assisted by Miss E. A. WILLIAMS, and is doing well the work assigned it. Marked improvement is manifest in many branches, and in all there is apparent a faithfulness on the part of teachers and scholars, such as must result in great good. Without desiring to be invidious, the Committee take pleasure in commending Miss WILLIAMS' success in teaching Geography. Whatever the method is, that she has adopted, the very excellent examination of her classes testifies that her pupils have more than committed to memory the facts contained in the text book, and have photographed indelibly upon their minds the prominent features of geographical knowledge.

The introduction of the "Lewis Gymnastics," in this School, has had a good effect, by serving to break up the tiresome monotony of school life, and the time occupied by these is more than accounted for by the increased cheerfulness and zeal with which they cannot fail to inspire the scholar. We hope the time will soon come, when all our Schools shall enjoy the benefit which may be derived from these simple, but interesting and useful exercises.

The Cutter Grammar School still remains under the charge of Mr. J. D. MARSTON, who has proved himself a capable and efficient teacher. Since September, 1864, he has been assisted by Miss MARY WARFIELD, who has done a wonderful work with those under her charge, evoking order and interest from confusion and indifference. This School, through the great and judicious improvement in school accommodations, has made

rapid progress during the last year, in every thing pertaining to discipline and study. The removal of the first class to enter the High School, has permitted the other classes to assume their proper positions, and given them encouragement to study, such as they could not have had, had that class remained a year or two longer, as was formerly the custom. And here, if no where else, is marked the advantage gained through the completion of our school course, by the addition of a High School.

Both teachers and scholars have new incentives to faithfulness, and certainly have shown, during the last Term of the school year, how inciting it is to have some certain change in position and study, to look forward to. And the Committee can but be highly gratified with the result. In this School, too, the "Lewis Gymnastics" have been practised with good effect.

INTERMEDIATE SCHOOLS.

The East Intermediate School during the past year has made very decided progress. Miss CADY has succeeded admirably in gaining the good will and interest of her pupils, and the consequence is, that the studies have been esteemed less a task than formerly, and the readiness and accuracy with which the recitations are marked, is indicative of the fitness and efficiency of this teacher. The good order manifest here, is testimony that discipline can be maintained here as elsewhere, and we trust the teacher may have the full coöperation of the parents in this District, in rendering this School equal in all respects to Schools of like grade elsewhere.

The Russell Intermediate, it is enough to say, remains under the supervision of Miss TURNER. Having won the confidence and respect of Committee and parents, she has continued to maintain the position she has always occupied as a faithful, energetic and successful teacher. Her pupils appreciating her worth, and entering heartily into her plans, have shown their determination to render themselves worthy of her care, and to maintain the good reputation which for some years past has belonged to this School. Progression without crowding, thoroughness without pedantry, and order without tyranny, have marked, and made this School worthy of the highest approbation of every honest lover of true learning.

The Cutter Intermediate School has been another year under the care of Miss ELIZA A. SIMMONS, and when we say that, we have sufficiently indicated the condition of the School. As a friend and teacher, Miss

Simmons has succeeded finely in winning the affection and interest of her pupils, and all true friends of education, may feel gratified with the results obtained. The new and more convenient room, too, has had its good influence, and the Town may well feel satisfied to witness how good the effect has been to provide convenient and pleasant rooms for children to pursue their studies in. The increased order and neatness alone, repay in some good measure, the expense incurred, and when we add to these the greater happiness aud interest of the scholars, we have said all that is needful to convince every one of the judiciousness of the change made.

PRIMARY SCHOOLS.

The East Primary School, which has remained in the care of Miss L. M. Crosby, has made great improvement both in behaviour and study, during the past year. Miss Crosby brings to her task a mind and heart well fitted for the duties of her position, and, judging from the success with which she has met, we should suppose that the children fully appreciated her good qualities, and loved her method of government. We hope she may find in the sympathy and assistance of parents, all the encouragement she deserves, and which we are desirous she should receive.

Russell Primary. Here, too, as in the Intermediate School of this District, the Committee consider themselves happy in retaining the services of a teacher so faithful to the interests of the School, and so capable to carry forward the introductory work of Education to successful issue. Though during some three months, Miss Cutter was obliged to absent herself from school, because of sickness, yet the year has been marked by good results, and the class about to be transferred to the Intermediate Department, is every way prepared to understand and enjoy the new studies upon which they are to enter. The happy faces of the children testify to the affection with which they regard their teacher, and the progress they have made bears witness to her fidelity in the performance of her duty.

The Cutter Primary has had the benefit of Miss Lizzie Schouler's instruction during the year just past, and has accomplished all that could be expected of it. It is always full, and during the year the Committee has had to push forward a class, to accommodate the increased demand for room, and have also added to the original number of seats.

The attendance here has been good, and the work done, every way satisfactory, and it is with regret that the Committee part with one so suitable

and efficient as a teacher of children, as Miss SCHOULER, but the removal of her family to another State, renders it impossible for us to retain her. We trust she may meet with the success her abilities deserve.

Thus excellent in condition and management are our Schools. There are, however, one or two serious drawbacks upon the usefulness of the Schools, which the Committee think ought to be remedied. There are upon our School Registers too many marks for absences which seem to us unnecessary. Of course, absence from sickness is unavoidable, and cannot be condemned; but absence from other than absolutely necessary causes, is not only injurious to the Schools, but is a wrong to the Town. Among the duties which parents owe as citizens, there are none more weighty than such as pertain to the right use of Town privileges. It is due to the Town that such progress should be made as it affords opportunities for, and those who do not make full use of such privileges, are not doing what they ought for the good of the Town. And among these privileges none are more important than those which are afforded in our Schools, and they who from any but unavoidable causes, prevent these educational privileges from being enjoyed to their fullest extent, are not as good citizens as they might be, and are placing stumbling blocks in the way of the progress and future well being of the Town. We hope that this error of frequent and unnecessary absence, may be immediately corrected.

There is another fault which we feel it our duty to take notice of: It is one which breaks in upon School discipline and study through the tardiness of the scholar, at the beginning of the session, and his dismissal before the close thereof. There is nothing more injurious to a child, than the habit of being tardy, and there is nothing more antagonistic to the discipline of a School. It is a habit wholly unnecessary, as our Schools commence late enough to allow the laziest person time to get through with the duties preliminary to the day's work, and it is only because of loitering and neglect, that any are tardy. We hope parents will aid us in the correction of this habit, by impressing upon the minds of their children the necessity of promptness and punctuality. The fault of early dismissal may be properly assigned to parents. They ought to refuse to grant an excuse from school duties before the regular hour of dismissal occurs. Such permission is subversive to good order, and teaches a child a lesson in shirking which is totally uncalled for, as we all learn that soon enough after we have finished our school course. We hope that

parents will carefully consider the ill effects arising from this plan of dismissal before the close of school, and refuse to grant their children the excuse necessary.

The Committee take great pleasure in recording a Gift to the High School, from CYRUS H. CUTTER, Esq., of the sum of eighty-seven dollars, being the value of his share in the Cotting Academy. At his request, this is to be expended in adding to the Chemical Apparatus of the School, and is a peculiarly acceptable gift. We hope there are others, ready to follow his example in contributing to the usefulness of this School. There is now within its walls, a Cabinet of Minerals belonging to Dr. J. C. HARRIS, which can be bought for a merely nominal sum, but which would add materially to the means of instruction of the School. There might be made also additions to the Philosophical Apparatus, without over-crowding the sphere of Philosophical Education. We hope nothing will be left undone to help in rendering this School deserving of its position as the crowning School of our system, and to render it worthy to be called a High School. And we commend this and all our Schools to the care and protection of our citizens.

For the Committee,

W. E. GIBBS, *Secretary.*

TRUANCY.

Commonwealth of Massachusetts.

Middlesex, ss. At the Superior Court, begun and holden at Concord, within and for the County of Middlesex, on the first Monday of June, being the sixth day of said month, Anno Domini, 1864:

The Inhabitants of the Town of West Cambridge present to this Court the following code of By-Laws, for adjudication and approval, to wit:

"BY-LAWS

Adopted by the Town of West Cambridge, at a legal meeting, held May 25th, 1863.

SCHOOLS. Section 1. If any scholar in either of the public Schools of this town shall be guilty of disorderly conduct in School, it shall be the duty of the teacher to report the case to the School Committee of the Town, and if, after having been admonished by one or more of said Committee, such disorderly conduct shall be persisted in, said Committee may suspend any such disorderly scholar from attending any town School, until they shall receive satisfactory assurance of the future good conduct of the offender.

TRUANCY. Sect. 1. Every habitual truant, and every child between the ages of seven and sixteen years, wandering about in the streets or public places of the town, having no lawful occupation or business, not attending School, and growing up in ignorance, shall, upon conviction thereof, be punished by fine not exceeding five dollars for the first offence, and for each subsequent offence by fine not exceeding ten dollars. In case of a second or other subsequent conviction, the Court, or Justice having jurisdiction of the offence, instead of imposing fine as above provided, may order such offender to be committed to any such Institution of Instruction, House of Reformation, or suitable situation, (if any there be,) provided for the purpose, under the provisions of the General Statutes, Chapter 42, Section 4, for such time, not exceeding two years, as such Justice or Court may determine.

Sect. 2. In case of the truancy of any child between the ages of seven and sixteen years, the treatment of the first offence shall be left to the discretion of the teacher of the School of which such truant is a member, whose duty it shall be to confer thereupon with the parent or guardian of such scholar; the second offence, by the same scholar, shall be reported by the teacher to the School Committee, and also to one of the Truant Officers, whose duty it shall be to call upon the parent or guardian of such scholar, and endeavor to obtain satisfactory assurance against a repetition of the offence, and, if he shall fail to receive such assurances, he shall proceed as in case of a third truancy. In case of a third truancy, or any subsequent truancy by the same scholar, it shall be the duty of the teacher to give notice thereof to the School Committee, and to one of the Truant Officers, and thereupon such officer shall make complaint against such truant, as a habitual truant, before some Trial Justice of the county, or other Court having jurisdiction of such offence. But if the parent or guardian of such truant, or of any person against whom complaint may have been made under the preceding section, shall, before judgment upon such complaint, give to the School Committee such assurances, or pledges, as shall be entirely satisfactory to them, that such offence shall not be repeated, they may, in their discretion, direct the proceedings on such complaint to be suspended and continued for a period not exceeding three months; and if, within the time of such suspension, there be no repetition of the offence, they may direct such complaint to be discharged, and all further proceedings thereon to be forever stayed.

Sect. 3. The Town shall, in each year, at its annual meeting, elect three officers, under the provisions of the General Statutes, Chapter 42, Section 5, who shall be known as Truant Officers, whose duty it shall be, in addition to their services prescribed by law and by the preceding section, to aid the School Committee, by all lawful means, in suppressing truancy, and enforcing the laws in relation to the attendance of children at School."

The foregoing By-Laws, being seen and understood by the Court, are on this twenty-seventh day of June, instant, approved.

In testimony that the foregoing is a true copy of record, I hereto set my hand, and affix the seal of said Court, on this thirteenth day of July, Anno Domini, 1864.

JOHN J. SAWYER, *Asst. Clerk.*

ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

Town of West Cambridge,

		$2,189 94

ALMSHOUSE AND POOR EXPENSES.

AT THE ALMSHOUSE.

Paid	John Lawrence, for Setting Glass, ...	$	75
"	T. A. Thornton, for Repairing Shoes,		82
"	Moses G. Flanders, for Cash paid for Sundries, ...	1	80
"	R. A. Knights, for Crutches, ...	1	75
"	Charles Nason, for Shaving C. Swan,	2	00
"	I. O. Carter, for Insurance, ...	5	70
"	Jesse Bacon, for Mason Work, ...	6	75
"	Cyrus H. Cutter, for Milk, ...	6	32
"	Lydia Learned, for Making Clothes,	7	50
"	Thos. Ramsdell, for Repairing Shoes,	8	00
"	Edward Storer, for Carpenter Work,	8	10
"	J. N. Woodard, for Furniture, ...	9	70
"	Walter Fletcher, for Rent of Spring,	10	00
"	Carter & Converse, for Bread, ...	11	77
"	James Durgin, for Ice, ...	18	00
"	R. B. Howe, for Repairing Roof, &c.,	28	64
"	Thomas Higgins, for Pigs, ...	28	00
"	Geo. Y. Wellington, for Insurance, ..	31	00
"	Locke & Hurd, for Potatoes, ...	31	50
"	H. B. Mitchell, for Fresh Fish, ...	42	80
"	Marshall & Locke, for Provisions, ...	24	25
"	John Peabody, " "	63	72
"	Henry Locke, " "	165	56
"	Solon Hardy, " Groceries, ...	111	60
"	T. H. Russell, " "	192	24
"	John A. Pattee, " "	308	67
"	Prescott, Proctor & Fowle, for Dry Goods, ...	82	59
"	J. Winslow Peirce, for Fuel &c., ...	126	10
"	Sam'l A. Fowle, for Grain and Meal,	143	14
	Amount carried forward,	$1,478	77

Amount brought forward,	$1,478 77	
Paid Dr. Jonas C. Harris, for Medical Attendance,	60 00	
" Davies Dodge, for Medicines,	44 47	
" Ralph W. Shattuck & Co., for Tin Ware, &c.,	91 21	
" Moses G. Flanders, for Salary and Female Help,	500 00	
		$2,174 45

The actual expense of the Almshouse Poor is shown by deducting the following items, viz: —

Board of Men on Highway Work,	$400 00
Received for Wm. Carnes' Board,	208 00
" of the Town of Belmont,	170 20
	$778 20

Which leaves a balance of $1,396.25, as the actual expense of the Almshouse Poor for the year. Most of the Superintendent's time is devoted to the Highways, and a large part of his pay should be considered Highway Expenses.

POOR OUT OF ALMSHOUSE.

Paid State Lunatic Hospital, at Worcester, for Support of Aaron Lock, Alanson Blanchard, and J. E. Jenkins,	$544 64
" Solon Hardy, for Groceries for Andrew Kenny's Family,	121 92
" T. H. Russell, for Groceries for Andrew Kenny's Family,	42 95
" James Gibson, for Rent for Andrew Kenny's Family,	40 00
" Davies Dodge, for Medicine for Andrew Kenny's Family,	35
Amount carried forward,	$749 86

	Amount brought forward,	$749 86
Paid	Solon Hardy, for Groceries for J. Devlin's Family,	9 00
"	Henry Locke, for Provisions for J. Devlin's Family,	4 60
"	John A. Pierce, for Milk for J. Devlin's Family,	1 96
"	Davis Dodge, for Medicine for J. Devlin's Family,	25 92
"	Dr. Jonas C. Harris, for Medical Attendance on J. Devlin's Family,	25 00
"	J. Winslow Peirce, for Fuel for T. Edges,	19 50
"	S. S. Davis, for Cash paid for Edges,	42 00

STEPHEN SYMMES, Jr.,
GEORGE C. RUSSELL,
GEO. Y. WELLINGTON,
} *Assessors of the Town of West Cambridge.*

West Cambridge, June 1, 1865.

SCHOOL REPORT.

To the Town of West Cambridge: —

The School Committee have occasion to submit a brief Report only, upon the condition of the Public Schools of the Town.

By a vote of the Town at the last annual meeting, they were authorized to appoint a Superintendent of Schools. They selected for this office Dr. R. L. Hodgdon, who has discharged his important duties with faithfulness and success. The utility of this office in this Town is fully established, and the Committee recommend its continuance from year to year.

The Superintendent has presented to the Committee a Report in detail, including several suggestions relating to the management and conduct of School children, which at this time have peculiar force and significance. The Committee adopt this Report of the Superintendent, and submit it to the Town, with full approval of its statements and recommendations.

The Committee congratulate the Town that a system of graded Schools is now in operation, which, without requiring burdensome expenditure, is securing the best results in the education of children. While pledging their own unremitting attention to the improvement and welfare of the Schools, they at the same time confidently look for the generous and enlightened support of this great interest on the part of the citizens of the Town.

WM. E. PARMENTER, *Chairman.*

West Cambridge, April 2, 1866.

SUPERINTENDENT'S REPORT.

To the Superintending School Committee of West Cambridge:

Gentlemen :—

At the close of the first year of our complete system of Schools, I am happy to report its harmonious and successful operation.

The Cotting High School has remained under the care of Mr. C. O. Thompson, assisted by Miss Isabel Cutler. The means of instruction in this School have been materially increased, during the year, by the addition of Mathematical, Philosophical, and Chemical Apparatus. This has been purchased, in part, by the gift from Cyrus H. Cutter, Esq., mentioned in the last Report of the School Committee, and in part from the proceeds of a course of lectures delivered by the Principal of the School, which have been generously appropriated to this purpose. The School is now in possession of all the apparatus absolutely necessary for its present purposes.

Mr. Samuel G. Damon has presented to the High School that valuable work, the "New American Cyclopædia, as the commencement of a Library of reference for the use of the teachers and pupils of the School." The surplus proceeds of a course of Geological Lectures, by William Denton, Esq., have been received, with the request that the same may be applied toward the purchase of a Cabinet of Fossils and Minerals for the High School. It is specially gratifying to mention these instances of generosity, so worthy of imitation, as well as commendation.

The Cutter Grammar School has continued in charge of Mr. J. D. Marston. The sub-Grammar, under Miss M. E. Warfield, and the Intermediate, under Miss E. A. Simmons. The Cutter Primary School was taught by Miss Suzie Cloutman, till the close of the second term, when she resigned, and Miss Clara A. Smith was appointed to the place.

The Russell Grammar School has been taught by Mr. Horace E. Morse. Early in the first term, Miss E. A. Williams resigned the charge of the Russell sub-Grammar School, and Miss E. G. Whitman has had the care of it the rest of the year.

Miss C. C. Turner has continued in charge of the Russell Intermediate School, with the exception of a few weeks at the commencement of the last term, during which, on account of her illness, Mrs. Wm. Russell took her place.

Miss Ellen Cutter has continued in the Russell Primary School.

The East Intermediate and Primary Schools have remained under the care of Miss M. S. Cady and Miss L. M. Crosby, respectively.

It was found necessary at the commencement of the first term to place the first class of the Russell Intermediate School in the sub-Grammar School, and to divide the first class in the sub-Grammar School between that School and the Grammar School. The crowded condition of the Russell School-House will soon demand relief. The sub-Grammar School in this house, receives each year a class from the Russell Intermediate, and one from the East Intermediate, while one class would make the School as large as the room can accommodate, or one teacher care for. The establishing of another Grammar School, which shall receive one of these classes, seems the only remedy. This state of things requires the careful consideration of the Committee, and of the Town. Nearly all the Schools have received instruction in Vocal Music during the last term. The expense of this has been met by voluntary contribution. and by the proceeds of concerts, given by the children of the Schools during vacation. It is hoped that the Town will, at no distant time, make an appropriation for a teacher in this important branch of education.

The condition of our Schools is very generally satisfactory. We have now a complete system of graded Schools, and the appropriations, made by the Town, are such as evince an appreciation, by the citizens, of the value of good Schools. All that is now necessary to keep our Schools up to a high standard, is that all in any way connected with them, whether officially or not, should do their whole duty to them. A mention of a very few of the more obvious duties may not be inappropriate here. All parents should ensure the regular and punctual attendance of their children

at all the sessions of the School. Sickness is the only valid excuse for absence. The frequent absence of a pupil interrupts his own progress, interferes with the progress of his class, forms a bad habit for himself, and sets a bad example for his companions. "Tardiness is something, in favor of which nothing has ever been said." It can seldom occur without the fault of either parent or pupil, and is generally the fault of both. Children should not only be sent to school, but sent in a condition suited to a vigorous and efficient pursuit of their school duties. Pupils of our Schools cannot frequently indulge in amusements, which continue late at night, and encroach upon the proper hours for sleep, without receiving serious detriment both physically and intellectually. The pupils are at just the age when the physical development is in most active progress, and when regular and careful habits are of the utmost importance. The mind is distracted from study by the anticipation of such amusements, and the physical exhaustion, resulting from excitement and loss of rest, renders any effective mental application impossible for sometime subsequent.

Some of the scholars in the High School have shown, during the last winter, the effect of late hours and excitement, by marked loss of rank and want of accuracy, and thoroughness in their studies, when compared with those who have pursued a more rational course. The effect of this evil has been felt, though in fewer instances, in the Grammar Schools, and in some cases, even in the Intermediate Schools. Let not these remarks be understood as condemning amusements, for one of the most important duties of parents is to furnish amusements for their children, but it is a duty equally imperative to make their children's amusements innocent and healthful. The parent should not consider all responsibility at an end when the pupil is in school, but should aid and encourage both teacher and scholars, by frequent visits to the Schools, and by active co-operation in all reasonable measures adopted for discipline and instruction.

One of the most important duties of those officially connected with the Schools, is the selecting of suitable teachers. Teachers should, first of all, possess the necessary literary qualification, and should be so familiar with all that is required to be taught in their Schools, and should so prepare themselves in every recitation heard, that, if they were placed in the position of pupils, prompt and accurate recitations would be made. This

may seem a slight requisition, but it is not always met. They should have the character and dignity that inspire respect, and make discipline easy. They should possess real ability in educating, that is in bringing out and developing the best powers of each individual pupil.

Hoping that our Schools may attain such a degree of excellence that we may challenge comparison with the best in the State, I submit this brief Report.

R. L. HODGDON, *Superintendent.*

Paid J. B. Hartwell, for Funeral of Lydia Perry,	28 75	
" J. W. Peirce, for Fuel,	148 98	
" Moses G. Flanders, Superintendent,	500 00	
" Moses G. Flanders, Cash paid Paupers,	2 86	
		$2,457 24

The actual expense of the Almshouse Poor is shown by deducting the following items, viz: —

Board of Men on Highway Work,	$400 00
Received for William Carnes' Board,	208 00
" of the Town of Belmont,	162 16
	$770 16

Which leaves a balance of $1,667.08, as the actual expense of the Almshouse Poor for the year. Most of the Superintendent's time is devoted to the Highways, and a large part of his pay should be considered Highway Expenses.

POOR OUT OF THE ALMSHOUSE.

West Cambridge, June 1, 1866.

SCHOOL REPORT.

To the Town of West Cambridge: —

The School Committee submit their Annual Report.

The Schools, during the year, have worked at disadvantage from two causes. At the outset, the Russell School House was filled to its utmost, by the pupils in the District residing nearest to it. The class from the East Intermediate which should, in course, have joined the Russell Sub-Grammar, could not be received. It was necessary to provide more room. A two-story School House was built on Mystic Street, of which the lower room only was finished. This was ready for a School at the beginning of the fall term, and the Russell Primary was placed in it. The class from the East School joined the sub-Grammar, and an attempt was made to grade the Russell Schools for the year. But it was found that the Russell sub-Grammar had one hundred pupils. This School had then to be separated, and it was made into two equal sections, dividing each class alphabetically. In this way the School has gone through the year.

The younger Russell Schools were fast gaining, and it became important to make provision for them. The upper room in the new School House was therefore finished.

Then in the latter part of October, the Cutter School House was burned. A sad loss and misfortune. The Cutter Schools could find no rooms in their own District, and the Grammar Schools were obliged to come to the centre of the town, where they were crowded together, at first in a store which chanced to be vacant, and afterwards in the upper room of the new School House. The Intermediate was placed in the hall of the Engine House, and the Primary was discontinued until the middle of January, when, after long search, a room was found in a dwelling house, large enough for the older class only.

The two School Houses at the Centre have been filled, therefore, by pupils from the whole extent of the Town. While this lasted, the grading of the Russell School was not to be thought of.

The Committee cannot too warmly praise the conduct of the pupils of the Cutter Schools while deprived of their School House. Through the hard winter, they have been constant at school, patient under every hardship, diligent in study, and excellent in behaviour in school and out.

With all these troubles, the Schools have made good progress; though so far retarded that it is thought best to defer the examination of candidates for admission to the High School until the end of the Summer term. The completion of the Cutter School House will, at once, relieve the Centre, and attention must be given to the Schools there.

The Russell Primary will, next term, number nearly one hundred pupils. There must be, at least, one new school therefore, and for a time there will be room enough; but not for a long time.

At the beginning of the next school year, there will be in the schools six hundred children. Nearly all the room we have will be taken up. The part of wisdom is to foresee the future need. The present pressure took us somewhat by surprise; but almost all the children of school age now attend the Public Schools. The Town must be ready to receive notice of new demands from the ever increasing crowds of its claimants for School instruction, and in good season provide for them.

The Annual Examination of the Schools, just made, had every satisfactory result. It has not been, of late, the habit of the Committee to make separate mention of the Schools; nor will this be done except where some change in the method or object of instruction has been made, or other peculiar reason exists, making it proper to direct to a particular School the attention of the Town. It is simple justice to the teachers and pupils to speak of them with almost unexceptional praise, and publicly to thank them for that faithfulness to duty by which they have placed the Schools at the highest point of usefulness and success.

The system of Schools, for which we have labored, so many years, we now possess. Each year proves its merit. It is capable of enlargement to embrace new Schools, and every variety of studies. Not only are requirements of common education supplied, but ample preparation for almost every walk in life may be made under it.

The High School becomes continually more important, as the head of the system of Schools, and as the department in which the older pupils complete their school training. The branches taught in the High School are many and various; yet, by careful distribution, they have been brought within the control of the Principal and his assistant. The advanced pupils begin to direct their studies towards some special purpose,

such as entering college, teaching, or mercantile pursuits; and as the time and attention of the Principal must be largely occupied by this class of pupils, another assistant will soon be required.

The Committee cannot too strongly commend the High School to the favor of the Town. Its excellent administration makes itself felt through all the lower Schools, which in turn well sustain their part in the system. The success of the High School has more than fulfilled any promise made in regard to it at the time of its beginning. During the year, public exercises in Declamation, Reading, and Composition, have been given from time to time on convenient evenings, with the most gratifying proof of the proficiency of the pupils. Prof. M. T. Brown has given two courses of instruction in Elocution, one at private cost, and the other at the cost of the Town, to the older classes, with the best results. Vocal culture is peculiarly needed in our Schools; where faulty enunciation has always been noticeable.

The High School building, although at present sufficient for the uses of the School, will almost immediately, upon the extension of the studies, and the addition of another department, require important modification. The Committee, therefore, in good season call the attention of the Town to the probable necessity, at an early day, of enlarged accommodations for the High School.

Several Schools have been fortunate in receiving instruction in Music, from Mr. L. W. Mason, an eminent teacher, permanently employed in teaching music in the Public Schools of Boston. Becoming interested in our Schools, Mr. Mason has, in the kindest manner, for several months, given to them his spare time, with an effect so surprising, and delightful, that it has almost seemed as if the children, from the youngest to the oldest, had acquired musical knowledge and power by intuition.

It will not be possible to retain the services of Mr. Mason, but enough has been done by him to show the benefit of making music a permanent branch of instruction in the Schools. His method is his own; but it may be used with success, with only the occasional aid of a competent instructor, by the teachers themselves.

Several changes have been made of teachers since the last Report.

Mr. E. O. Grover was appointed to the Russell Grammar School, at the beginning of the year. It is scarcely possible to name any respect in which this School has not advanced under his care.

Miss Lizzie Wyeth was appointed to one division of the Russell sub-Grammar, and held it in even progress with its parallel School.

Miss Mary E. Warfield resigned, and was succeeded by Miss Sarah T. Hooke, in the Cutter sub-Grammar. The single term of service of the latter has entirely satisfied the Committee of her fitness and ability. Miss Warfield, through a number of years, was an example of persistent duty discharged in the light of good conscience, and in the fortune of good health. Her work was ably done.

Miss Ellen N. Gragg was appointed to the East Primary, as the successor of Miss L. Maria Crosby, in whose merit and faithfulness, the parents of her pupils had the utmost trust. She retired from her School with the substantial expression of their good will. Miss Gragg has had the advantage of the training course in the department connected with the Boston Normal School, and has introduced object teaching into the School with very pleasing results. Miss S. J. French has recently been appointed to the Cutter Primary.

The Schools have been well looked after by the Superintendent, Dr. R. L. Hodgdon, who has just finished his second official year. While they were in their disturbed condition, his unwearied attention, and almost entire time were given to their relief.

The School Committee are in no special way the recipients of the bounty of the Town, inasmuch as they share only with the rest of their fellow citizens, yet they desire to express their thanks for the liberal support which the Town extends to the cause of public education. Commensurate with the generosity of the Town is the duty to use its means prudently. A dollar is equally wasted, whether squandered alone, or at the end of thousands. The Town should watch carefully the application of the public money. It is not surprising that some suspicion of extravagance should exist where sums large in the aggregate, are expended for purposes not fully seen nor understood by the many who have not followed the advancement of our Schools. But in truth, no public Board is, by the nature of its duties, more secure against lavish and wasteful expense than that of the School Committee. Its objects of expenditure are few and distinct, and their cost settled and definite. To enumerate them: School-Houses are built, under direction of the Town, upon competition. Salaries fix themselves by economical law, or speaking deferentially, market value. Fuel finds its unyielding price, and in its use its limit of combustion; repairs are not often expensive, and contingencies have a narrow margin. A little patient examination will relieve the anxiety of those who are oppressed with the fear of waste on the part of the School Committee. Nearly their whole fund is exhausted by two or three large items, and their whole account can ordinarily be read at a glance.

Indeed, the objects which might tempt the Committee into unusual expense, — such for example as the purchase of apparatus, or books of reference — are provided for in the income of the "William Cutter School Fund." This for thirty years has been absorbed in the general expenditure, when it might have been better applied to special purposes of School improvement. Perhaps full justice has scarcely been done to the donor of this noble gift to the Schools of this Town. His will bears date, March 17, 1823, and it gives his whole estate, five thousand dollars, — as it proved to be, — after the death of his wife, as a trust-fund for the benefit of the Schools. The Town was then poor, and from the date of his will it may well be inferred, that at the annual meeting he had been struck with the smallness of the sum voted for Schools, and found it in his heart to increase it in the future from his own means. It is the gift of a humble, childless man, whose motive could not be other than unselfish, and it should be so used as to bear its own peculiar blessing from generation to generation.

The Committee can now commend the Schools to the confidence and liberality of the Town. Public education is progressive. If the cost advances, so does the return rise in value. Not how little can be spent, but how much can be fairly afforded, is the true principle. They who have children in the Schools, should look upon the money spent for education, as applied to the best private and domestic uses; and all others, as an investment to secure social peace, virtue, intelligence, and prosperity. Wise policy, enlightened conscience, the clearest sense of duty, point one way for our action in the support of Public Schools.

WM. E. PARMENTER, *for the Committee.*

West Cambridge, April 1, 1867.

" John Osborn, for Writing Specifications, and Revenue Stamps,	1 75	
		6,126 87
Total,		$18,819 07

ALMSHOUSE AND POOR EXPENSES.

Paid M. G. Flanders, Salary as Superin'nt,	$500	00	
" Robert Howe, for Repairing Roof,	8	22	
" Sam'l A. Fowle, for Grain and Meal,	179	05	
" George H. Cutter, for Groceries,	114	91	
" Prescott & Fowle, for Dry Goods,	50	41	
" William F. Hadley, for Groceries,	334	56	
" E. Keefe, for Fresh Fish,	23	19	
" J. W. Peirce, for Coal, &c.,	117	60	
" Thomas H. Russell, for Groceries,	159	45	
" Henry Locke, for Provisions,	140	85	
" R. W. Shattuck & Co., Hardware, &c.,	22	43	
" J. M. Chase, for Carpenter Work,	26	73	
" H. B. Mitchell, for Fresh Fish,	20	69	
" Walter Fletcher, for Rent of Spring,	10	00	
" Thomas Higgins, for Pigs,	20	00	
" Atwill & Richardson, for Cow,	75	00	
" Edward Russell, for Killing Pigs, &c.,	6	00	
" Henry J. Bacon, for Mason Work,	12	25	
" Charles Dudley, for Mats and Brooms,	3	00	
" John Peabody, for Fresh Beef,	22	99	
" James Durgin, for Ice,	20	00	
" Davies Dodge, for Medicine,	24	90	
" Thos. Ramsdell, for Boots and Shoes,	7	22	
" J. B. Hartwell, Burial of E. Cushing,	27	00	
" Carter & Converse, for Bread,	12	83	
			$1,939 28

The actual expense of the Almshouse Poor is shown by deducting the following items, viz: —

Board of Men on Highway Work,	$400	00
Received for William Carnes' Board,	112	57
" of the Town of Belmont,	134	08
	$646	65

Which leaves a balance of $1,292 63, as the actual expense of the Almshouse Poor for the year. Most of the Superintendent's time is devoted to the Highways, and a large part of his pay should be considered Highway Expenses.

POOR OUT OF THE ALMSHOUSE.

Paid Dr. H. O. Adams, for Medical Attendance on Ann E Hodge,	$28 75		
" Worcester Lunatic Hospital, for the Support of Locke, Jenkins, and Blanchard,	575 53		
" W. C. Currier, Carrying Paupers to Tewksbury,	10 00

" Reuben Reed, " "	16 64	
" Town of Medford, Repairs on Bridge,	20 35	
" Francis Gould, Surveys and Plans,	38 00	
" Thomas H. Russell, for Powder,	1 50	
" Elbridge Farmer, for Fence Posts,	38 10	
" A. D. Hurd, for Two Carts,	190 00	
" Isaac Baxter, for Breaking Out Streets,	.25 99	
" Jas. M. Chase, for Repairing Bridge,	3 02	
" A. L. Dickson, " " Sled, &c.,	13 93	
" W. O. Menchin, " " " "	1 25	
		1,082 35
Total,		$5,853 16

The ordinary Highway Expenses will be shown by adding to the above the Board of the men employed on the Highways at the Almshouse, estimated at $400 00. Then deduct $1,000 for completion of New Road; $450 paid for a New Horse; $16 82 for Repairs on Sidewalk; $213 94 earned by the Town Teams; $264 90 for Sheds, will leave a balance of $3,505 30.

TOWN HOUSE.

Paid Arlington Gas Light Company,	$107 64
" A. L. Teel, for Labor and Stock,	45 69
" Prescott & Fowle, Carpeting, Stationery, &c.,	31 58

SCHOOL REPORT.

To the Town of Arlington:

The School Committee find occasion for brief comment only on such details as they now present in their Annual Report.

The dedication of the new Cutter School House was an auspicious beginning of the year. The exercises, presided over by Rev. D. R. Cady, Chairman of the School Committee, were largely attended, and the friends of education in the Town improved the opportunity for congratulation and counsel. The Building Committee and the builder are entitled to great credit for the despatch and thoroughness with which they discharged their duty. The School House more than replaces that which was lost, in added convenience and improvement.

Under the liberal appropriation of the Annual Town Meeting, the Schools began with a full corps of teachers. The grades established the preceding year were continued, excepting in the Russell District, where the Sub-Grammar School which contained two sections, with co-equal classes, was separated into Schools so graded, as to be adapted to the existing organization. A division of the Adams Primary, was also made, rendered necessary by the number of pupils. The older portion of these formed a School, placed in the upper story of the Adams School House, and Miss Lizzie S. Hodges was appointed the teacher.

The following changes of teachers have occurred during the year.

Early in the first term Miss S. T. Hooke of the Cutter Sub-Grammar, who had won great regard by her excellence as a teacher, as well as by the charm of her character, was compelled to leave School by an illness, which, after a few weeks, ended in her death.

Miss Eliza Simmons, of the Cutter Intermediate, was appointed to the Sub-Grammar, and Miss S. F. Gibbs to the Intermediate School in this District.

Miss Lizzie Wyeth, of the Russell Sub-Grammar Division Z, resigned after a short but satisfactory term of service, and Miss Addie Melcher was appointed.

At the close of the Summer Term, Miss Ella G. Whitman, of the Russell Sub-Grammar, Division A, relinquished her School—which for more than two years had manifested by its success the control of a teacher of the highest merit.

Miss Etta M. White taught the School for a single term, when Miss L. Porter was appointed as the permanent teacher.

Miss Mary Cady, of the East Intermediate, ended a period of several years of earnest, faithful and profitable duty, by her resignation at the end of the Summer Term.

Miss Dora Brown was appointed to the vacancy.

Miss Hodges, to the regret of the Committee, resigned during the Winter Term, having accepted an appointment in one of the Boston Schools.

At the close of the year Mr. J. D. Marston, of the Cutter Grammar, tendered his resignation. The Town by this, has lost a devoted, laborious teacher, whose skill increased as his School improved under him, and whose work would bear every test of thoroughness.

The Summer Term ended with the exercises of the first graduating class of the High School, which took place in the Town Hall, in the presence of a large audience. Four young ladies who had completed the prescribed course, read original essays, the merit of which must have satisfied the friends of the School that its usefulness had not been over-rated. A suitable diploma was given to each graduate.

Rev. Mr. Cady resigned his membership of the Committee on his departure for Europe. The Town can fully appreciate the loss to the Board of this wise and faithful friend of our Public Schools.

In July a new class was admitted to the High School. The Committee see more and more the necessity of insisting upon strict requirement in

the qualifications of admission to this School as the condition of ensuring its high character and usefulness.

During the severe Winter there has been much sickness among the children in the Schools. The Adams Primary, No. 1, was for this cause suspended for one entire term; and a short suspension of another School became necessary.

The Annual Examinations displayed an admirable result of diligent study on the part of the pupils, and of able direction on the part of the teachers. The presence of many parents at the examinations was especially gratifying. The Committee make no exception to the uniform excellence of the Schools.

The Committee find pleasure in giving unusual emphasis to their commendation of the zeal and ability with which the teachers perform their work. The citizens of this Town would do well by occasional personal visits to convince themselves of this fact, and at the same time satisfy the teachers that the fidelity of their service is not disregarded.

The improvement in punctual and constant attendance goes on in the Schools. Truancy is of the rarest occurrence; absence and tardiness without excuse have greatly diminished. School pride has been aroused in respect of these faults, and asserts itself in the prevention of their frequent occurrence.

The experience of another year confirms all that has heretofore been said in favor of the system of graded classes in the Schools, and as the controlling element in this system stands the High School. The influence of this School upon the younger Schools in methodizing instruction and stimulating effort, as well of teachers as pupils, cannot be overstated.

From its beginning, this School has been in the ablest hands. All that the most skilful instruction could avail for the intellectual advancement of its members, has been accomplished, but not less has every incitement to moral growth and refined culture been present to supply the fullest demands of true education.

The prospective change in the administration of this School is the occasion of anxiety to the Committee, through their desire that it may not lapse from its high character. The Committee are confident that the

Town will sustain them in guarding against the decline of the High School.

Dr. R. L. Hodgdon, who for three years has rendered valuable services as Superintendent of Public Schools, declines a re-election.

The Committee have only to ask of the Town a continuance of that liberality towards the support of Public Schools, which for the last few years has been extended. On their part they will not fail to make such use of the means placed in their hands, as their best judgment and the desire for careful administration shall direct.

WM. E. PARMENTER, *for the Committee.*

Arlington, April 6, 1868.

JOHN F. ALLEN, *Town Clerk.*

SCHOOL REPORT.

To the Town of Arlington:

The Common Schools are the only means of education within the Town. It contains no Private School; and with few exceptions, the children of its inhabitants are placed for instruction in the Schools which not merely in obedience to law, but far in advance of its requirement, you have freely, liberally and wisely established.

The Committee to whom the office of supervision has been confided, recognize in their trust, a direct and personal responsibility to every citizen, not only in the disbursement of the public money to which he has contributed, but in the graver duty of seeing that the children, sent into the Schools, shall not fail to receive the education which is their due, and which is the guaranty of their future usefulness.

The progress and condition of the Schools in the year now ended, disclose no sign that they have suffered detriment or decline. As it has not been for the Committee, however, to assume the entire duty of administration, so it is not for them to claim the credit of successful fulfilment. It is to faithful and competent teachers that the labor, thought, and untiring interest have been transferred, by which School system has been shaped, method of instruction well applied, and education secured in orderly and harmonious development.

The Town is familiar with the graded plan, upon which, for several years the Schools have been arranged. No modification of the plan has been made since the last Report of the Committee, and indeed for years to come the general plan may remain unaltered, although the probable changes in population may soon require a re-distribution of pupils among

the Schools, and a re-districting of the Town, with a view to convenience and the equalization of numbers.

HIGH SCHOOL.

The High School, voluntarily established while the Town was below the limit of statute liability, is now sustained in conformity to law. By anticipating the legal requirement, opportunity was gained for an early organization of the School; and many favorable influences were secured by the timely and free act of the Town, which might have been lost if it had waited for the time when its duty would have been compulsory. From its opening, to the first of June last, the School was in the hands of Mr. Thompson, as its master. With what clear faculty the School was organized, with what judgment it was directed, with what learning and skill it was quickened into diligent and enthusiastic study, we have had proof in the improvement of its members in scholarship and refinement. The success of the teacher confirmed the reputation which has commanded for him a conspicuous and important position in the field of education.

The work of his hands remains, a School which will well compare with the best of its grade, and in which our children can receive the same instruction which is afforded in the Schools standing next in rank to our best colleges.

The graduating class numbered thirteen; a class unusually large in proportion to the size of the School. The exercises of the day of graduation were of great merit. Of this class, one member entered Harvard University, the first youth ever fitted for college in the Public Schools of this Town. In justice to his instructors as well as to himself, it should be said, that at the College examination for admission, he stood in the first rank of candidates, and was accepted without conditions. Two young women of the class are at the State Normal School in Salem, pursuing their studies for the profession of teachers.

Misses Dana and Goodrich, the excellent Assistants at the High School, resigned at the end of the School year.

A class of seventeen from the Grammar School, well prepared, were admitted at the annual examination in July. The per centage of correct

answers at this examination was higher than that attained by any previous class; a fact showing the good effect of the High School, as a point towards which the subordinate grades may direct their studies with definite aim.

The School well maintains its character in the hands of Mr. Henry C. Ide, as Master, and Miss Mary M. Melcher, as Assistant.

GRAMMAR AND SUB-GRAMMAR SCHOOLS.

There is some inequality in the size of the two Grammar Schools, while the Sub-Grammar Schools, nearly equal in numbers, show some disparity in the grading. The Russell Schools keep their classes full for most part during the year, while the Cutter Schools are found with diminished numbers at certain seasons. In accounting for this, we find, occasionally, good reason in some necessity which withdraws children from School for labor, and at the same time an insufficient reason in what seems a habit of absence when no such necessity exists. The good management of all these Schools is manifested in their uniform improvement.

The Russell Sub-Grammar, which formerly existed in two divisions, is now a single School, under one teacher.

Mr. Bradford, an able teacher, has had charge of the Cutter Grammar, for the year, and has lately resigned.

Miss Eliza Simmons a most valuable and faithful teacher, who, for more than seven years taught in the Cutter Schools, has also resigned.

Miss L. A. Porter, of the Russell Sub-Grammar resigned at the close of the first term, after a year of most satisfactory service.

INTERMEDIATE AND PRIMARY SCHOOLS.

It has been difficult to pursue uniform grades in these Schools, but an approximation has been made. The large number of pupils in the Russell District has rendered necessary a sub-division, by which there is in that District an addition of two Schools. Still the counterpart of these may be found in the classes of the other Districts, where, for example, two classes appear in one School, which in the more populous District are

expanded into two Schools. This sub-division must be made from time to time, as the number of School children increases.

These Schools are in good condition in the three Districts.

There has been an unusual change of teachers during this year.

Sudden death deprived us of one of the best and most faithful of them, who at the hour of rest from her labor, entered upon the rest eternal.

Miss Gragg and Miss Maynard, her successor, have resigned from the East Primary, and Miss French from the Cutter Primary. All these were teachers of marked merit.

The Committee have this year changed the terms, so that at present there are four instead of three terms, as formerly. This has been thought advisable, inasmuch as in the old Term of fifteen weeks, teachers and scholars became exhausted, often beyond the point of recuperation after such vacation as could be reasonably assigned. With the same number of School weeks arranged in shorter terms, it is believed that this trouble may be avoided. By this change, the Annual Examinations are postponed to the close of the Term which ends with April.

The Town has, from year to year, at the suggestion of the Committee, authorized the appointment of a Superintendent of Schools. This authority was granted as usual at the last annual meeting. The member of the present Committee, who had served as Superintendent for several years, did not care again to assume the duty, and no one occurring to the Committee as the right person, to be selected for the office, it has not been filled. Still the Committee are clear that it is in every way important that the station should be occupied. The compensation hitherto has been small, amounting to the inadequate sum formerly paid to the Committee, and by them relinquished. The present Committee and undoubtedly future Committees would gladly waive all compensation, could they but secure the assistance of a competent Superintendent of Schools. It will be well for the Town to determine whether by some increase of the salary, some person may not be found fitted for the duty, whose services can be secured.

There is no system of School inspection in this Commonwealth which comes under the control of the State. The whole duty of inspection is

entrusted to local School Committees. These may be faithful or unfaithful. The chief trouble—as they are commonly made up mainly of men interested in education, indeed, but engaged in engrossing employments, is, that there can be no continued and daily oversight of Schools; nor when difficulty arises can they always be ready to escape from other engagements and give attention to the wants of the Schools. They cannot for the same reason follow up changes and improvements in modes of instruction, and watch the course of educational matters so as to secure for their Schools in season the benefit of the best current methods. As an advisory Board their services can be of great value, and with a Superintendent, the whole means of School inspection would be measurably complete. The subject of superintendence is submitted to the Town as worthy of consideration.

With confidence every year renewed and confirmed, that the Town will generously sustain its Public Schools, and promote their excellence, we commend to you again this great cause of Public Education.

WM. E. PARMENTER, *for the Committee.*

Arlington, April 5, 1869.

" R. W. Shattuck & Co., for Pipe, &c.,	72	70
" Rawson & Hittinger, for Engine and Crusher, ...	2,050	00
		$2,564 95

We, the Subscribers, would here present a few facts, and offer a few suggestion in regard to Highways:

In the opening of Spring, owing to the numerous freshets, the highways, as well as townways, were very much washed, requiring a large amount of labor, and a large expenditure of money, to make them passable, and in many instances safe for public travel. Appleton Street, at its junction with Arlington Avenue, has been widened and graded, and the ascent made much easier, and a marked improvement in appearance at the connection with the Avenue. The street, leading from the Avenue past the residence of Mrs. Mary E. Locke, called Mt. Vernon Street, (subject to a decision of the Town), has been raised and graded, making a much easier access to the lands on the hill. Adams and Mystic Streets have also been raised and graded to the Commissioners' line, in order to protect Adams Street from washing away, also, to meet the grade of Russell Park. All other streets where found necessary, have been graveled and put in good order. The Culvert through the Old Cemetery and across Pleasant Street has been taken up and enlarged, and a new one has been built from the centre depot across the avenue, the old one being insufficient to take the water. All other Culverts in town where found necessary have been taken up and enlarged, or cleaned out.

The Stone Crusher, ordered by the Town, has been located at the Gravel Pit, and is in successful operation, and in the opinion of your Board, will be a valuable piece of property for the Town.

It was deemed necessary to lay a permanant gutter from the descent above Water Street to the Centre Depot, and your Board after full deliberation and estimates, found that a Con-

crete could be laid down for less money than stone graving; furthermore, it can be kept clean much easier and will be more durable. The Bridge on Medford Street over Mystic River was found to be very much decayed and unsafe for public travel, and a new one has been built, and one half the expense paid by the Town of Medford. The Bridge over Alewive Brook on Charlestown Street is very much decayed and will have to be rebuilt soon. Your Board met the Somerville Board early in the Spring, and after consultation concluded to delay the matter another year. We would recommend that when this bridge is rebuilt, it be widened, in order to make the street strait and of uniform width. Also, the grade be raised in order to lessen the ascent on either side.

JOHN F. ALLEN, *Town Clerk.*

REPORTS

OF THE

TOWN OFFICERS

OF THE

TOWN OF ARLINGTON,

For the Year ending Dec. 31st, 1870.

ALSO,

A LIST OF THE TOWN, COUNTY AND STATE TAXES,

ASSESSED FOR THE YEAR 1870.

BOSTON:
ARTHUR W. LOCKE & CO., PRINTERS, 120 MILK STREET.
1871.

REPORTS OF THE SELECTMEN.

We, the undersigned, would here present to the Citizens of the Town brief Reports of our doings for the year Eighteen Hundred and Seventy.

HIGHWAYS AND BRIDGES.

Under our direction, Mr. Samuel E. Kimball has had supervision of the men employed to labor upon the Highways, and we feel satisfied that he has been faithful in the discharge of his duty, and that the Town has been well-repaid, in that he has labored with and exercised that judgment in the management of the men, necessary to their profitable employment.

Early in the Spring, work was commenced on Appleton Street, which has long been in such a condition, that the residents, all of whom upon the highlands are farmers, have been obliged to unload their fertilizers at the junction of the Main Avenue, thereby annoying the people living in the vicinity, and creating an extra expense of about the same as that caused in transporting it to the foot

of the hill; the street has been widened, and at the points of greatest ascent cut to a gradual slope, thereby beautifying the same, rendering the lands adjacent of more value, and of easier access; considering the extent of territory in the Town approachable only by this Avenue, we feel that the money has been judiciously expended in the completion of this work. The expense has been about twelve hundred dollars.

ARLINGTON AVENUE.

The Highway Surveyors of last year deemed it for the interest of the Town to procure a profile of this street for future reference in the permanent grading and repairs, and Messrs. Mason & Co., were employed to furnish the same; the plan having been adopted by the Selectmen, work was commenced at the Bridge, by removing the surface of the road bed and filling with crushed stone to the depth of from six to ten inches, and covering them with blue gravel; one thousand feet of the street has been thus remodelled, and to which we would call your particular attention, that you may decide as to the feasibility of continuing the work another season; in our judgment, a liberal appropriation should be made for this object; the expense per rod will be diminished as the work progresses, by having a less distance to team the material. The amount expended thus far for labor and material has been about twenty-four hundred dollars.

SPRING PLACE.

This Avenue has been gravelled, and the gutters cleared, at an expense of one hundred and fifty dollars.

WALNUT STREET.

This street, from the Main Avenue to the house of Mrs. Fanny R. Prentiss, has been graded and put in good condition, at an expense of three hundred dollars, which was one hundred dollars in excess of the appropriation.

MYSTIC STREET.

The new part of this street has needed more than ordinary repairs, owing, in part, to its being a new street, and to the nature of the material of which it is composed; considering its distance from the Town Pit, blue gravel was obtained of Mr. Stephen Symmes, and the street placed in good condition, at an expense of two hundred dollars. All other streets in the Town have been examined, and when the same were found necessary, thoroughly repaired, with the exception of our Main Avenue, which we are aware needs immediate attention; the large amount of travel, the width of the street, and the tendency of the blue gravel to blow from its face during the past season of unusual dryness, have made inroads upon its smooth surface, of which, in past years, the citizens have felt a pride, and have received the commendation of the travelling public.

THE NEW BRIDGE ON CHARLESTOWN STREET.

After examining several plans, with the estimated expense of building by adopting either of them, and consultation with the Highway Surveyors of the town of Somerville, who were jointly interested in providing a durable structure that would permanently meet the wants of the Towns, we decided to construct a Granite Arched Bridge,

to widen the street at the Bridge to forty-three feet, and to raise it two feet above the old grade. The contract was awarded to Bernard McCarroll, of Somerville, who was to complete the work for the sum of six thousand dollars; the town of Somerville to pay thirty-eight and three-tenths per cent., and the Town of Arlington sixty-one and seven-tenths per cent. of the above amount. The work progressed under the supervision of Messrs. A. F. & N. N. Sargent, Engineers, of Malden. Twenty-six hundred dollars have been paid the Contractor on account, leaving a balance due him upon the final completion of the work of eleven hundred and two dollars, which, with the incidental expenses, will make about four thousand dollars as total expense. Appropriation, three thousand dollars. We would recommend for Highway expenses for next year fifteen thousand dollars.

STREET LAMPS.

This branch of our expense has been larger than usual, partially on account of the style of burners in use being easily injured, and not adapted for street lamps; after careful enquiry as to the best burner, the Tufts' Governor has been substituted, which we are aware will better serve the public; much glass has been maliciously broken in the Lanterns during the year, and a reward has been offered for the conviction of any persons thus destroying property necessarily thus exposed. Two new lamps have been added during the year — one on Academy street and one on the Main Avenue, corner of Avon Place.

The expense for the past year has been eleven hundred seventy-one dollars and thirty-one cents.

Would recommend an appropriation of twelve hundred dollars for the next year.

GUIDE BOARDS.

During the year several new Guide Boards have been placed where required by law, and all Boards are in good condition.

THE POOR OF THE TOWN.

The poor at the Almshouse have been under the care of Mr. and Mrs. Flanders. Charles Swan, Samuel Russell, and Alfred Locke, have been supported at the House during the year; Sarah Nason until the twenty-fifth of May, when she was removed by her friends; Timothy Leary and wife were admitted in October, and will probably remain. Eight persons have been temporarily provided for at the House. Expense for the year, two thousand one hundred and seven dollars; of this amount five hundred and forty-six dollars should be deducted and added to the Highway expense for board of men employed on the Highways. One hundred and ninety-two travellers have been furnished with food and lodging.

We would recommend an appropriation of twenty-two hundred dollars for the coming year; also, five hundred dollars for a new Shed and painting the exterior of the House, as it is for the interest of the Town that this be done the coming season.

POOR OUT OF THE ALMSHOUSE.

A few persons have been assisted residing in other towns who belonged in Arlington, and small quantities of groceries and fuel have been furnished the needy in this

Town. Medical aid has also been procured when necessary. Four person have been sent to the State Almshouse in Tewksbury. Alanson Blanchard and Jerome Peirce are still at the Lunatic Hospital in Worcester. The expense for the year has been six hundred eighteen dollars and eighty-one cents. Of the above amount, one hundred and eighty-eight dollars and eighty-seven cents has been repaid to the Town by J. W. Peirce, guardian for Jerome Peirce, and ten dollars from the State for the burial of a State pauper, leaving four hundred and nineteen dollars and ninety-four cents, as the actual expense for the year. We would recommend an appropriation of seven hundred dollars for next year.

WILLIAM CUTTER SCHOOL FUND AND POOR WIDOWS' FUND.

As Trustees of the above Funds, we would state that on the seventh day of May last, Mr. A. P. Bucknam paid the principal of the William Cutter School Fund due from him of $500, and it has been loaned to the Town. We now hold the note of the Town of Arlington for the full amount of the Fund, $5,354.

Poor Widows' Fund. — Having received in April last a donation of $76.35 from the Committee of the Arlington Lecture Association, it was loaned to the Town; the fund is now invested in a note of the Town and two United States 5-20 Bonds of $100 each, making total Fund $575.-61, the income of which to January 1, 1871, has been distributed to six poor widows, giving to each $5.75.

FIRE DEPARTMENT.

The Engine and Apparatus have been under the care of Abijah Frost; three fires have occurred during the

year; the house of Eber Hill, damaged $100; the house of Nathan Robbins, loss $3,000; insurance $1,500; the mill of Cyrus Cutter, loss $3,000 — no insurance; Webb Bros., occupants of the mill, loss $5,000; insurance $2,-500. At two of the above fires, we have received timely assistance from the Steam Fire Engine Co., No. 5, of Cambridge; one hundred feet of new hose have been purchased, which makes 600 feet of hose in good order; the house should be repaired and painted the coming season, and an appropriation of five hundred dollars will be required for the department.

TOWN HOUSE.

An appropriation of $3,550 having been made for the purpose of remodelling the building, plans and specifications were procured, and the contract awarded to James M. Chase and Jesse Bacon. As the work progressed, it was deemed advisable to make some necessary repairs and alterations not specified in the contract; a new floor has been laid in the hall, new gas fixtures furnished, the pipes replaced by those of a larger size, an additional entrance made to the hall, and a platform erected in the northerly end, occupying room heretofore of but little value; pleasant and commodious rooms are now provided for the Town officers, the Juvenile Library, and ante-rooms for use in connection with the Hall, for which there has been expended $701.99 more than appropriated. Messrs. Anderson, Howes & Co., have a lease of the westerly part of the lower floor until Feb. 14th, 1873, paying a rent of $300 per annum; Robert Speatman has a lease of a portion of the basement until July 1st, 1873, at $75 per year; Frederick E. Fowle occupies the southerly room as a Post

Office, paying $125 a year. The exterior of the building is very much in need of a coat of oil, for which, with the necessary incidental expenses for the year, we would recommend an appropriation of $800.

SAFE.

After careful enquiry, it was found that a Safe of proper strength and size could not be fitted up for the amount appropriated, and as it was deemed to be for the interest of the Town that nothing less should be procured, a substantial and safe deposit for the funds and records of the Town has been provided and placed in the Selectmen's Room. The vault, with suitable doors and locks, was purchased of Charles E. Kershaw ; the mason work was done by Jesse Bacon, and the interior finished by James M. Chase. Expended in excess of the appropriation $300 and the old Safe.

MOUNT PLEASANT CEMETERY.

The loam has been removed from the main avenue, and the same gravelled from the gate to the Hearse house ; proper care has been taken in the trimming of trees and clearing the walks in the yard ; the money thus expended, with repairs on pump, and for tools, has been $71.50. Three lots have been sold for $85. Additional ground should at once be secured for the enlargement of this yard, or other grounds provided.

J. W. PEIRCE,
GEO. C. RUSSELL,
J. F. HOBBS.

MATTHEW ROWE.

The Selectmen, Overseers of the Poor, Surveyors of Highways, Engineers of the Fire Department, Treasurer and Clerk, meet for the transaction of the business of their respective departments, at their Rooms in the Town House, on the last MONDAY EVENING of each month.

REPORT

OF THE COMMITTEE ON THE OLD CEMETERY.

The Committee have expended during the year 1870 one hundred and thirty-nine dollars and twenty-five cents in the following manner:

All the avenues and walks have been covered with a good dressing of blue gravel, and done in such a manner as will render a renewal of a similar expenditure unnecessary for several years to come.

A large number of evergreen trees were carefully planted, but under the influence of the unparalleled drought of the past season, many of these trees have died. Those remaining have been pruned and otherwise properly cared for, and are in a thriving condition. This little spot occupies a very prominent place in the early history of our country, and it is desirable that it should be kept in a state of preservation creditable to the inhabitants of the Town and their patriotic ancestors. The Committee presuming that this opinion is in harmony with that of every other citizen, would recommend a small appropriation sufficient to replace the trees affected by the drought, and to keep the walks and avenues in order. Historical writers and others, interested in all that is connected with the period of the Revolution, often come to this "ancient

burial place" to seek for information that may exist upon the head-stones here erected. The Committee would, therefore, suggest the propriety of resetting and cleaning some of the ancient memorials which are so covered with moss, that it has become very difficult, if not impossible, to read the inscription upon them. Many of these stones mark the spot where repose the sacred remains of our oldest and most respected citizens, whose relatives are either dead or not in condition to meet the necessary expense, and as this would be very small in amount, your Committee think that the Town can afford to bestow this simple act of justice upon the memory of those whose lives were a blessing to the community among whom they lived and died.

All of which is respectfully submitted by your Committee.

BENJAMIN POLAND,
J. S. POTTER.

REPORT

OF THE COMMITTEE FOR THE SUPPLY OF PURE WATER.

The Committee appointed at the last Annual Town Meeting to procure plans and specifications for the supply of Water for the Town, ask leave to make the following partial Report:

They have procured plans and specifications for pumping water from Spy Pond into a Reservoir, to a height of about 150 feet above the surface of the Pond; but the expense would be so large, your Committee thought it inexpedient to recommend the adoption of this plan; your Committee then opened communications with parties who have adopted other plans for supplying Towns and Cities with water, and have come to the conclusion that the Holly principle is the best, cheapest and most efficient, unless you can obtain a supply by gravity, which is the cheapest and best in all cases, where you have a sufficient head to give pressure enough for all purposes, fires included. The Holly principle, which is operating with perfect satisfaction in Western New York, nearly all the Western and some of the Southern States, is operated without the large expense of reservoir or stand pipe, but pump direct from the Pond or Lake into the main pipes; in case of fire, the water may be raised and thrown with

great force to a great height by attaching hose to the hydrants, throwing as many streams as might be required with much more effect than the best Steam Fire Engines, thus doing away with the Fire Department, except sufficient force to manage the hose.

Your Committee regret that they are not prepared to make a full report of the expense of introducing a supply of Water for the Town by the Holly principle, for publication at this time, in consequence of one of the parties preparing estimates being absent from the State, and will not return in season, but the Committee will be prepared at the Annual March meeting to lay before the Town various plans, with estimates of costs and other expenses ; in the meantime your Committee would invite all who feel an interest to examine the recommendations and certificates in the Town Clerk's Office, from Mayors of Cities, Engineers and Underwriters, who have tested the Holly principle for the supply of Water to Cities and Towns.

Respectfully submitted by your Committee,

BENJ. POLAND.
DAVID FISHER.

RUSSELL PARK.

The Committee beg leave to submit the following as their Annual Report:

The work has been prosecuted with complete success, but to make it an ornament to the Town and a lasting memorial of the liberality of our late Townsman, the Committee found that more work was required than was contemplated in the outset. The work the past season has included the setting of heavy granite posts at the principal entrance, and granite steps opposite the cross paths, the erection of a fence on the south side; also, the displacement of almost the entire surface loam, together with the filling of a large amount of gravel for walks and for bringing almost the entire surface to the requisite grade.

The sum expended has slightly exceeded the appropriation, and the Committee recommend that an additional sum of seven hundred dollars be appropriated for settling the deficiency, setting out trees, grassing the lawns, and thoroughly completing the work.

J. W. PEIRCE,
GEO. C. RUSSELL,
J. F. HOBBS,
JOHN OSBORN,
JESSE BACON.
